The Honorable Board of Supervisors  
Maricopa County  
County Administration Building  
301 W. Jefferson Street  
Phoenix, AZ 85003

Arizona Revised Statute (ARS) §41-1279.21 requires the Office of the Auditor General to conduct financial audits of the accounts and records of County governments. Pursuant to the statute, the Office of the Auditor General audited the Comprehensive Annual Financial Report (CAFR) of Maricopa County in accordance with generally accepted auditing standards for the year ended June 30, 2004.

This report consists of management's representations concerning the finances of Maricopa County. Consequently, management assumes full responsibility of the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of Maricopa County has established a comprehensive internal control framework that is designed both to protect the government's asset from loss, theft, or misuse and to compile sufficient reliable information for preparation of Maricopa County's financial statements in conformity to generally accepted accounting principles (GAAP). Because the cost of internal control should not outweigh their benefits, Maricopa County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The goal of the independent audit was to provide reasonable assurance that the financial statements of Maricopa County for the fiscal year ended June 30, 2004, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor expressed a modified opinion on the Maricopa County financial statements for fiscal year ended June 30, 2004. The auditors concluded that the County did not maintain adequate controls for claims payment processing resulting in a disclaimer of opinion on three major enterprise funds, administered by the Maricopa Managed Care Systems, and business-type activities. The financial statements for the remaining opinion units were considered fairly presented in conformity with U.S. generally accepted accounting principles. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of Maricopa County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. This report is available in Maricopa County's separately issued Single Audit Report.

On June 30, 1980, Arizona voters approved general propositions amending the Arizona Constitution to establish expenditure and revenue limitations for local governments. The purpose of the expenditure limitation is to control expenditures and to limit future increases in spending to adjustments for inflation, deflation and population growth of the County. The Constitution also limits the amount of revenues that may be generated from property taxes. A two-percent plus new construction annual increase is the maximum allowed by law unless special voter approval is obtained. This report is available in Maricopa County's separately issued Expenditure Limitation Report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A, which can be found immediately following the report of the independent auditors.

## **County Profile**

Maricopa County is located in the south-central portion of the State of Arizona. Maricopa County is considered to be the top growth area in the state, and one of the top growth areas in the country. Maricopa County occupies 9,222 square miles of which 1,441 square miles are incorporated.

Maricopa County operates under a five member elected Board of Supervisors who appoints a County Manager. The County Manager is responsible for the general administration and overall operations of the various County departments. Maricopa County has several-elected officials including the Assessor, Clerk of the Superior Court, Constables, County Attorney, Recorder, Sheriff, Superintendent of Schools, and the Treasurer.

Maricopa County includes in its financial statements all activities of the County and its component units. Component units are legally separate entities for which the County is considered to be financially accountable. See Note 1 to the Notes to the Financial Statements - Summary of Significant Accounting Policies for additional information.

Maricopa County offers a wide variety of governmental services, including:

- *Justice and Law Enforcement:* Clerk of the Superior Court, County Attorney, Superior Court, Juvenile Court, Justice Court, Sheriff's Department, Indigent Representation and Public Fiduciary
- *Medical Services:* Maricopa Medical Center, Health Plans, Public Health, Human Services and Forensic Science Center
- *Community Resources:* Superintendent of Schools, Library District and Stadium District
- *Public Works:* Flood Control District, Transportation Department and Solid Waste
- *County Administration:* Board of Supervisors, County Administrator, Assessor's Office, Clerk of the Board, Elections, Finance, Human Resources, Information Technology, Treasurer and Facilities Management

The annual budget serves as the foundation for Maricopa County's financial planning and control. Maricopa County is required by ARS §§42-17101 et. seq. to annually prepare and adopt a balanced budget. Arizona law further requires that no expenditure shall be made or liability incurred in excess of the amounts budgeted except as provided by law. Maricopa County's annual budget is available on the Internet at the following address: <http://www.maricopa.gov/budget/>.

## **Factors Affecting Financial Condition**

Maricopa County currently enjoys a favorable economic environment with an unemployment rate of 3.8% for the fiscal year ended June 30, 2004, compared to a statewide unemployment rate of 5.0%. According to Arizona Workforce Informer, Maricopa County contains 60.87% of the states total population ([www.workforce.az.gov](http://www.workforce.az.gov)). Maricopa County has a variety of industries within its boundaries with the major industries being service retail trade and manufacturing. Some of the major employers located in the county include Honeywell International, Banner Health Systems, Wal-Mart and various local governments. Phoenix is the capital of Arizona as well as the county seat for Maricopa County.

Because of a favorable climate and mild weather conditions, tourism is also a large factor in the strength of the local economy. Major sporting events can be held year around and many people come to the area during the winter months. Maricopa County is the home to teams from major league professional sports, which include the Arizona Cardinals of the National Football League (NFL), Phoenix Suns of the National Basketball Association (NBA), Arizona Diamondbacks of the Major League Baseball (MLB) and the Arizona Coyotes of the National Hockey League (NHL). Maricopa County also hosts ten major league baseball teams for the annual spring training Cactus League. Maricopa County is also a host to other major sporting events such as the FBR Open, formerly known as the Phoenix Open, golf tournament, and Phoenix International Raceway, which at this time hosts two major NASCAR events each year. Cities within Maricopa County also host college bowl games such as the Fiesta Bowl and the Insight Bowl. In January of 2008, the city of Glendale will also host the NFL Super Bowl.

## **Awards and Acknowledgements**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Maricopa County, Arizona for its comprehensive annual financial report for the fiscal year ended June 30, 2003. This was the fifteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both U.S. generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. As a result of a disclaimer of opinion on three of the County's major enterprise funds (Maricopa Health Plan Fund, the ALTCS Fund and the Non-AHCCCS Health Plans Fund) and on the government-wide business type activities, the County will not receive the GFOA Certificate of Achievement for Excellence in Financial Reporting for fiscal year 2004.

The Government Finance Officer Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to Maricopa County, Arizona for its annual budget for the fiscal year beginning July 1, 2003. In order to receive this award, a government unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device. The Distinguished Budget Presentation Award is valid for one year.

The preparation of this report could not be accomplished without the efficient and dedicated services of the Department of Finance staff, the assistance of administrative personnel in the various departments, and the competent service of the Office of the Auditor General. We appreciate all of those who assisted in and contributed to the preparation of this report. We also wish to express our sincere appreciation to the Board of Supervisors for their support in planning and overseeing the financial operations of the County in a responsible and progressive manner.

Respectfully submitted,

---

## **The Honorable Maricopa County Board of Supervisors**

The Maricopa County Citizens Audit Advisory Committee has prepared this letter for inclusion in the county's Comprehensive Annual Financial Report (CAFR) according to the committee's charter. Described herein are the committee's composition, responsibilities, and an account of how the responsibilities were discharged.

### **Composition of the Committee**

The membership of the committee shall consist of five voting members and three non-voting members. The voting members shall be board of supervisor appointees from the public and shall serve two-year terms. The non-voting members shall be the county's chief financial officer, the county attorney, the auditor general, or their designees. The chairman of the board of supervisors shall appoint a committee chairman from the voting members. The committee chairman shall serve a one-year term.

### **Responsibilities of the Committee**

The committee's primary function is to assist the board of supervisors in fulfilling its oversight responsibilities. The committee accomplishes this function by reviewing the county's financial information, the established systems of internal controls, and the audit process. The committee also suggests areas requiring audit emphasis. Specific duties of the committee are described in the committee charter.

### **Accomplishments of the Committee (Fiscal Year 2003-2004)**

The Citizens Audit Advisory Committee:

- Reviewed the county's internal and external audit activities and management's responses thereto.
- Reviewed the county's annual financial statements and the auditor general's audit report.
- Enhanced the communication between the internal and external auditors.
- Met 7 times during the fiscal year, although the charter requires only four meetings.

Respectfully,

**Chairperson Victoria L. Prins, CPA**

DEBRA K. DAVENPORT, CPA  
AUDITOR GENERAL

WILLIAM THOMSON  
DEPUTY AUDITOR GENERAL

Independent Auditors' Report

Members of the Arizona State Legislature

The Board of Supervisors of  
Maricopa County, Arizona

We have audited the accompanying financial statements of the governmental activities, business-type activities, the discretely presented component unit, each major fund, and aggregate remaining fund information of Maricopa County as of and for the year ended June 30, 2004, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Maricopa County Stadium District, which represents 13 percent of the assets, 16 percent of the liabilities, and 1 percent of the revenues and expenses of the County's governmental activities on the government-wide financial statements. The District represents approximately 1 percent of the assets and less than 1 percent of the liabilities, revenues and other financing sources, and expenditures and other financing uses of the aggregate remaining fund information reported on the fund statements. We also did not audit the financial statements of the Housing Authority of Maricopa County discretely reported on the government-wide financial statements. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as it relates to the amounts included for the Maricopa County Stadium District and the Housing Authority of Maricopa County, are based solely on the reports of the other auditors.

Except as discussed in the following paragraph, we conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinions.

The Maricopa Managed Care Systems had inadequate internal controls for processing medical claims and accounting for prepayments made to medical providers. As a result, we could not rely on the Systems' financial reporting system to generate reliable information for medical expenses, prepaid expenses, and medical claims payable. Further, the Systems' records did not permit us to apply auditing procedures sufficient to determine whether the amounts reported for medical expenses, prepaid expenses, and medical claims payable in the financial statements of the Maricopa Health Plan Fund, the Arizona Long-Term Care System (ALTC) Fund, the Non-AHCCCS Health Plans Fund, and business-type activities were accurate. In addition, these control deficiencies affected the amounts reported in those funds and business-type activities for charges for services revenues, accounts receivable, due from other funds, and due to other funds.

Since the Maricopa Managed Care Systems did not maintain adequate internal controls for processing medical claims and accounting for prepayments made to medical providers and we were not able to apply auditing procedures to satisfy ourselves as to the amounts reported for medical expenses, prepaid expenses, and medical claims payable, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the financial statements of the Maricopa Health Plan Fund, the ALTCS Fund, the Non-AHCCCS Health Plans Fund, and business-type activities as of and for the year ended June 30, 2004.

In addition, in our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, General Fund, Jail Operations Fund, General Obligation Fund, Lease Revenue Fund, Medical Center Fund, and aggregate remaining fund information of Maricopa County as of June 30, 2004, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

As described in Notes 2 and 3, beginning in fiscal year 2004, the Housing Authority of Maricopa County is reported as a discretely presented component unit. In prior years, the Authority was part of the primary government and was reported as the Housing Department, a special revenue nonmajor governmental fund. This change constitutes a change in the County's reporting entity.

The Management's Discussion and Analysis on pages 3 through 17, the Budgetary Comparison Schedules on pages 83 through 87, the Schedule of Agent Retirement Plans' Funding Progress on page 88, and the Infrastructure Assets information on page 89 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual fund statements and schedules, and statistical section listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of the other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with *Government Auditing Standards*, we will also issue our report on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters at a future date. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

## Management's Discussion and Analysis

---

This discussion and analysis is intended to be an easily readable analysis of Maricopa County's (County) financial activities based on currently known facts, decisions or conditions. This analysis focuses on current year activities and should be read in conjunction with the Transmittal Letter that begins on page viii and with the County's basic financial statements following this section.

### Financial Highlights

- The total assets of the County exceeded its liabilities at the close of the fiscal year by \$2.5 billion (net assets). Of this amount, \$417.3 million (unrestricted net assets) may be used to meet the County's ongoing obligations to citizens and creditors.
- The County's total net assets as reported in the Statement of Activities increased by \$220.2 million, a 9.6 percent increase over the prior period. Of this amount, \$237.9 million is attributed to governmental activities and (\$17.7) million is attributable to business-type activities.
- The County's governmental funds reported combined fund balances of \$711.3 million, or an increase in fund balance of \$37.3 million over the prior fiscal year. Approximately 95.1 percent of the combined fund balances or \$676.5 million is available to meet the County's current and future needs (unreserved fund balance).
- Unreserved fund balance for the General Fund increased by 9.4 percent to \$315.9 million; approximately 49.3 percent of total General Fund expenditures. In accordance with Arizona Revised Statutes (A.R.S.), this entire amount is budgeted to be spent in the next fiscal year. A.R.S. §42-17151 requires that total estimated sources of revenue must equal the total estimated expenditures in the budget for the current fiscal year. In addition, A.R.S. §42-17102 stipulates that the estimated expenditures may include an amount for unanticipated contingencies or emergencies.
- The County's proprietary funds reported combined total net assets of \$108.4 million of which total unrestricted net assets were \$19.7 million.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements consist of three components 1) Government-wide financial statements, 2) Fund financial statements, and 3) Notes to the basic financial statements. Required Supplementary Information is included in addition to the basic financial statements. The Combining and Individual Fund Statements and Schedules – Nonmajor Funds begin on page 100.

**Government-wide Financial Statements** are designed to provide readers with a broad overview of the County's finances, in a manner similar to private-sector businesses.

- The *Statement of Net Assets* presents information on all County assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.
- The *Statement of Activities* presents information showing how net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

# Maricopa County

## Management's Discussion and Analysis

---

Both of these government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government; public safety; highways and streets; health, welfare and sanitation; culture and recreation; education; and interest on long-term debt. The business-type activities of the County include the Medical Center, Arizona Health Care Cost Containment System (AHCCCS)—Acute Health Care program, AHCCCS—Arizona Long-Term Care System (ALTCS) program, Non-AHCCCS health care programs (Senior Select and Health Select), and the other business-type activity (Solid Waste).

Component units are legally separate entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are in substance part of the County's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the County. The reporting entity is comprised of the primary government, Maricopa County Flood Control District, Maricopa County Library District, Maricopa County Public Finance Corporation, Maricopa County Special Assessment Districts, Maricopa County Stadium District, and the Maricopa County Street Lighting Districts. The Housing Authority of Maricopa County is reported as a discretely presented component unit.

*The Government-wide financial statements can be found on pages 23-25 of this report.*

**Fund Financial Statements** are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate finance-related legal compliance. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

- **Governmental funds** are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a county's near-term financing requirements. Governmental funds include the general, special revenue, debt service, and capital projects funds.
- Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County reports four major governmental funds. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General, Jail Operations, General Obligation, and Lease Revenue funds.

Data from the other governmental funds (nonmajor) are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements*, which begin on page 100 of this report.

*The governmental funds financial statements can be found on pages 26-29 of this report.*

## Management's Discussion and Analysis

---

- **Proprietary funds** are maintained two ways. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for the Medical Center, AHCCCS—Acute Health Care program, AHCCCS—Arizona Long-Term Care System (ALTCS) program, and the Non-AHCCCS health care programs (Senior Select and Health Select). These four components comprise the Maricopa Managed Care Systems (MMCS). The County also reports the operations of Solid Waste as an enterprise fund. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its equipment services, telecommunications, reprographics, risk management, employee benefits trust, and sheriff warehouse functions. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Fund financial statements for the proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Medical Center, AHCCCS—Acute Health Care program (Maricopa Health Plan Fund), AHCCCS—Arizona Long-Term Care System (ALTCS) program (ALTCS Fund), and Non-AHCCCS health care programs (Non-AHCCCS Health Plans Fund) operations are considered to be major funds of the County. Data for the Solid Waste Fund is reported in the other enterprise fund column. The County's internal service funds are combined into a single, aggregated presentation in the proprietary funds financial statements. Individual fund data for the internal service funds is provided in the form of combining statements, which begin on page 242 of this report.

*The proprietary fund financial statements can be found on pages 32-37 of this report.*

- **Fiduciary funds** are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

*The fiduciary funds financial statements can be found on pages 38-39 of this report.*

**Notes to the Financial Statements** provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on pages 44-79 of this report.

**Required Supplementary Information** is presented concerning the County's General Fund and Jail Operations Fund. A budgetary comparison schedule has been provided for both of these funds to demonstrate compliance with budget and additional information is provided by the Notes to Budgetary Comparison Schedules. Also presented is the schedule of funding progress for the County's two agent retirement plans and infrastructure assets reported using the modified approach. Required supplementary information can be found on pages 83-89 of this report.

### **Government-wide Financial Analysis**

This year is the third fiscal year that the County applied Governmental Accounting Standards Board (GASB) Statement No. 34.

### **Net Assets**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. The following table reflects the condensed Statement of Net Assets of the County for June 30, 2004, as compared to the prior year.

\* The governmental activities amounts for fiscal year 2003 were adjusted for a change in the reporting entity (see Note 3 to the financial statements for clarification). In addition, the classification of net assets for governmental activities for fiscal year 2003 was adjusted for prior period corrections.

The governmental activities total net assets at June 30, 2004, increased from the adjusted fiscal year 2003 balance by \$237.9 or 10.9 percent due primarily to an increase in capital assets. The majority of the increase in total assets and net assets is attributable to the ongoing construction in the Jail Construction Fund. The Jail Construction Fund expended over \$77.8 million in capital outlay for the fiscal year ended June 30, 2004. A large portion of the remaining increase can be attributed to the capital projects of the Flood Control District and the Transportation Department that were expended through the Flood Control Capital Projects Fund and the Transportation Capital Projects Fund – see pages 134 and 135 of the nonmajor governmental funds combining statements.

The governmental activities total liabilities at June 30, 2004, experienced a net decrease of \$25.5 million from the adjusted fiscal year 2003 balance. The majority of the decrease is related to the long-term liabilities, specifically those related to debt service payments for general obligation bonds, lease revenue bonds, certificates of participation and capital leases. See Note 12 to the financial statements for additional information.

The business-type activities total net assets decreased from the prior year by \$17.7 million. The business-type activities account for only 4.3 percent of the government-wide total net assets. Business-type activities total assets increased by \$28.8 million and total liabilities increased by \$46.5 million resulting in a decrease of total net assets of \$17.7 million. The significant increases in assets were from the Maricopa Health Plan Fund and the ALTCS Fund that collectively had an increase in accounts receivable of \$19.6 million and an increase in prepaid assets of \$12.8 million. Accounts receivable increased due to the receivables from AHCCCS that will be finalized upon correction of data by MMCS. Prepaid assets increases are the result of prepayment of health care providers due to the inability to properly process claims. Although total assets increased, cash and investments held by the County Treasurer had decreased by \$20.1 million. Additionally, internal balances for the business-type activities changed from fiscal year 2003 of (\$47.3) million to (\$10.6) million as reported in fiscal year 2004. The improvement in internal balances was primarily from an improved cash position in the Medical Center Fund which had a cash deficit of \$47.3 million in fiscal year 2003 to a \$21.9 million deficit in fiscal year 2004 or an improved

## Management's Discussion and Analysis

---

change of \$25.4 million. Total liabilities increased due to significant delays in claims processing for the Maricopa Health Plan Fund, ALTCS Fund and the Non-AHCCCS Fund. See proprietary funds page 32 for additional information.

At June 30, 2004, the County's combined governmental activities and business-type activities assets exceeded liabilities by \$2.5 billion. Total net assets increased over the prior period by \$220.2 million or 9.6 percent. The governmental activities comprise 108.0 percent of the increase from the prior year. The increase for governmental activities can be attributed to the significant increase in the County's capital assets, and the reduction of the County's long-term liabilities, as discussed previously.

Net assets consist of three components. By far, the largest portion - \$1.9 billion or 74.7 percent - of the County's net assets reflects the investment in capital assets (e.g., land, buildings and improvements, machinery and equipment, infrastructure and construction in progress), less any related debt used to acquire those assets that is still outstanding. The governmental activities comprise 96.2 percent of this component of net assets. The County uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. This component of net assets for governmental activities increased by \$199.5 million due to the County's investment in its capital assets, particularly the construction related to the adult and juvenile facilities (Jail Construction Fund) that were approved by the voters in 1998, and other construction project expenditures from the County's Flood Control and Transportation capital project funds.

The second component from the County's total net assets, \$220.8 million or approximately 8.8 percent, represents resources that are subject to external restrictions on how they may be used. The governmental activities comprise 92.6 percent of this component of net assets. This component increased for governmental activities by \$36.0 million and business-type activities decreased by \$27.7 million, for a net change of \$8.3 million.

The final component consists of unrestricted net assets, \$417.3 million or 16.5 percent, and may be used to meet the County's ongoing obligations. The governmental activities comprise 95.3 percent of this component. Unrestricted net assets for governmental activities increased from fiscal year 2003 by \$2.4 million, or .6 percent.

### **Changes in Net Assets**

As discussed previously, the County's total net assets of \$2.5 billion increased by \$220.2 million as reported in the Statement of Activities. Of this amount, \$237.9 million, or 108.0 percent, is attributable to governmental activities, and (\$17.7) million is related to business-type activities. The increase in total net assets for governmental activities resulted primarily from an increase in net capital assets due to significant capital projects during the fiscal year. The net assets invested in capital assets increased for the amount of current year capital expenditures and will decrease in future years as the capital assets are depreciated over their useful lives. The decrease in total net assets for business-type activities was primary due to the net operating losses incurred by the Maricopa Health Plan Fund of (\$24.9) million, ALTCS Fund of (\$9.1) million and the Non-AHCCCS Health Plans Fund of (\$10.0) million. The losses are primarily attributed to increases in medical expenses for the current fiscal year, processed claims related to fiscal year 2003, potential payment errors to providers such as duplicate payments and incorrect fee schedules. Potential payment errors are being reviewed by County officials.

The following table reflects the condensed Statement of Activities of the County for the fiscal year 2004 compared to the prior year and indicates the changes in net assets for Governmental and Business-type Activities:

## **Governmental Activities**

In the government-wide statements statement of activities the significant revenues reported included taxes (County levied, general sales and vehicle license taxes) and operating grants. Taxes represent 67.9 percent of total governmental activities revenues for fiscal year 2004. Taxes revenues increased by \$85 million from property taxes levied of \$42.9 million, other County levied taxes of \$8.8 million and sales taxes of \$27.8 million. The taxes and operating revenues provide the principal support for the functions of the County that include general government; public safety; highways and streets; health, welfare and sanitation; culture and recreation; and education. The functions of highways and streets, culture and recreation, and education are shown in the condensed Statement of Activities as other expenses. In the current fiscal year, the County's total net assets increased by \$220.2 million. Governmental activities of the County contributed \$237.9 million or 108.0 percent to this increase. The majority of this increase is attributable to the following:

One of the main differences a reader will see between the governmental funds reported in the fund financial statements and the Statement of Activities is that governmental funds in the fund financial statements report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Capital outlay expenditures exceeded depreciation expense in the current period by \$212.9 million.

Total governmental activities expenses increased by \$82.2 million, or 7.4 percent, over the prior period resulting in an offsetting decrease in net assets. The largest increase is from the public safety function and includes the Jail Operations Fund of \$36.8 million, Sheriff (General Fund) of \$5.6, County Attorney (General Fund) of \$7.3 million and the Flood Control Fund (nonmajor special revenue fund) of \$5.1 million. Increases in fiscal year 2004 expenditures for the Jail Operations Fund consist of correctional health of \$4.7 million, juvenile probation of \$4.2 million, sheriff detention of \$17.2 million and other services of \$10.7 million.

## **Business-Type Activities**

As discussed earlier, the business-type activities of the County include the Medical Center, AHCCCS—Acute Health Care program, AHCCCS—Arizona Long-Term Care System (ALTCS) program, the Non-AHCCCS health care programs (Senior Select and Health Select) – these four components are the Maricopa Integrated Health System – and Solid Waste. Business-type activities total net assets decreased by \$17.7 million. The Maricopa Integrated Health System and the Solid Waste Fund contributes only a small percent to the total County net assets even though it comprises approximately 35.8 percent and 42.8 percent of the County's revenues and expenses, respectively. The change in net assets is a significant indicator to the profitability of the County's business-type activities. The Maricopa Integrated Health System makes up 94.8 percent of the net assets of the business-type activities. Business-type revenues increased \$50.2 million while expenses increased \$111.5 million from the prior year. The majority of the increase in revenues was for charges for net patient service revenues attributable to the Medical Center (\$45.7 million) that resulted primarily from an increase in patient population growth of 8 percent and a 10 percent increase in patient charges. The increase in business-type expenses was applicable to the Maricopa Health Plan Fund and the ALTCS Fund from an increase in medical expenses for the current fiscal year, prior year claims processed in the current fiscal year, increase in administrative costs and potential claim payment errors that are being reviewed by County officials. The overall decrease in business-type net assets of \$17.7 million resulted from an increase in expenses that exceeded revenues.

## **Financial Analysis of the County's Funds**

As noted earlier, the County uses *fund accounting* to ensure and demonstrate compliance with finance-related legal requirements.

# Maricopa County

## Management's Discussion and Analysis

---

**Governmental Funds.** Governmental activities are contained in the general, special revenue, debt service, and capital projects funds. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2004, the governmental funds reported combined fund balances of \$711.3 million and an increase in fund balance of \$37.3 million over the prior fiscal year. Approximately 96.5 percent of the combined fund balances or \$686.5 million is available to meet the County's current and future needs (unreserved fund balance). The remaining fund balance is reserved for inventories, advances and debt service.

The following funds are the County's major governmental funds:

The General Fund is the County's primary operating fund. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$315.9 million, while total fund balance reached \$318.3. This represents an increase in unreserved fund balance from the prior year of \$27.1 million, or 9.4 percent. This increase can be attributed to significant savings in the General Fund for general government and health, welfare and sanitation expenditures. The savings are due to lower than anticipated payouts for hospital pre-AHCCCS claims settlements. In addition, spending from contingency funds was less than anticipated in the General Government Department. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to the total fund expenditures. Unreserved fund balance represents 49.3 percent of the total fiscal year 2004 General Fund expenditures, while total fund balance represents 49.7 percent of that same amount. These ratios indicate a strong fund balance position in comparison to expenditures.

The Jail Operations Fund is a special revenue fund that was established under the authority of propositions 400 and 401, which were passed in the General Election of November 3, 1998. These propositions authorized a temporary 1/5 of one-cent sales tax to be used for the construction and operation of adult and juvenile detention facilities. On November 5, 2002, the voters approved the extension of the 1/5 of one-cent sales tax in the General Election to be used for jail facility operations. The extension begins in the month following the expiration of the original tax and may continue for not more than twenty years after the date the tax collection begins. The Jail Operations Fund accounts for the jail tax revenue along with transfers from the General Fund for maintenance of effort (MOE). The MOE transfer from the General Fund is used to support the jail detention operations. Arizona Revised Statutes require the County to calculate the maintenance of effort transfer on an annual basis. The Jail Operations Fund transfers monies to the Jail Construction Fund for the construction of the jail facilities. At the end of the current fiscal year, total fund balance of the Jail Operations Fund was \$61.5 million, of which more than 99 percent is unreserved. This was an increase in total fund balance of \$27.6 million, or 81.5 percent, from the prior fiscal year. Although the fund had more expenditures than revenues by \$44.5 million, the increase in fund balance can be partially attributed to net transfers of \$72.3 million, which was a net increase of \$49.6 million over the prior year. Transfers from the General Fund for maintenance of effort were \$120.9 million while transfers to the Jail Construction Fund were \$48.6 million. The amount to be transferred to the Jail Construction Fund for any given year is determined through the budget planning process and tied to the jail tax collection projections and construction schedules.

The General Obligation Fund is a debt service fund that accounts for debt service on all various purpose general obligation bonds. Funding is provided by the County's secondary property tax revenues, which may be used only for debt service. On July 1, 2004, the County will pay off the remaining \$20.165 million in general obligation bonds.

## Maricopa County Management's Discussion and Analysis

The Lease Revenue Fund is a debt service fund that accounts for the debt service on the Lease Revenue Bonds, Series 2001 and the Lease Revenue Refunding Bonds, Series 2003. The fund balance is set aside for future debt service on the Lease Revenue Bonds, Series 2001 and each year the fund balance will be reduced by the annual debt service payment until the debt is satisfied. Funding for the Lease Revenue Refunding Bonds, Series 2003 will be provided by transfers from the General Fund departments who benefited by the refunding bond issue. At the end of the current fiscal year, unreserved fund balance of the Lease Revenue Fund was \$74.3 million, while total fund balance was \$85.0 million.

The following table presents the amount of all governmental funds revenues from various sources as well as increases or decreases from the prior year.

During fiscal year 2004, the County experienced an increase in governmental revenues from the previous year of \$97.8 million, a 7.1 percent increase. Tax revenues increased primarily from property tax revenue. Although the County did not increase the property tax levy rate, an increase in the assessed value and new housing resulted in an additional \$43.0 million in revenue. An increase in intergovernmental revenues was from an increase in the sales tax apportionment of \$28 million and vehicle license tax apportionment of \$12.5 million as reported in the General Fund.

The following table presents the amount of all governmental funds expenditures by function compared to prior year amounts.

## Maricopa County Management's Discussion and Analysis

---

Expenditures from governmental fund types for fiscal year 2004 increased by \$21.2 million, a 1.6% increase from the prior year. The most significant changes were in public safety expenditures that have increased by \$70.3 million, while capital outlay expenditures decreased by \$65.4 million from the previous year. The increase in public safety is related to operating expenditures associated with the jail facilities of \$36.8 million (Jail Operations Fund) that include increases for correctional health services of \$4.7 million, juvenile probation of \$4.2 million, health care mandates of \$6.1 million and sheriff detention services of \$17.2 million. Additional increases in operating expenditures were related to the Sheriff Department (General Fund) of \$5.6 million and the County Attorney (General Fund) of \$7.3 million.

During fiscal year 2004, capital outlay decreased \$65.4 million to \$248.5 million, or 20.8 percent. The decrease is primarily related to the County's capital projects relating to the jail detention facilities that will be completed in fiscal year 2005.

**Proprietary funds.** The County's proprietary funds (enterprise funds) provide the same information found in the government-wide financial statements (business-type activities), but in more detail. Internal Service Funds, although proprietary funds, are not included in the following section.

The following funds are the County's major enterprise funds:

The Medical Center Fund provides quality, cost competitive health care and health professional education to assure the health security of individuals, families, and the community. During fiscal year 2004, the Fund had an operating income of \$10.9 million, which is an increase of \$40.3 million from the prior year. Operating revenues increased by \$46.2 million or 13.8 percent while operating expenses increased by only 1.6 percent. The increase of \$40.3 million in operating income from the last fiscal year resulted primarily from an approximate 8% patient population growth rate and a 10% rate increase for patient services. In addition, the Medical Center received approximately \$12.7 million and \$4.6 million from the Maricopa County Health Plans and the Correctional Health Department, respectively, for prior years' patient receivables that had been previously written off as debt expense resulting in a reduction in current year operating expenses.

The Maricopa Health Plan (MHP) Fund is an acute health care program operated by Maricopa Managed Care Systems (MMCS). MMCS contracts with the Arizona Health Care Cost Containment System (AHCCCS), which provides monthly capitation revenues based on AHCCCS—Acute Health Care program enrollment. Operating revenues increased by 19.4 percent due primarily to an increase in membership. Operating expenses increased 51.6 percent mostly due to a \$44.8 million or a 43.3 percent increase in medical expenses. The increase in medical expenses resulted from increased membership, claims paid pertaining to the previous fiscal year, and potential payment errors to providers such as duplicate payments and incorrect fee schedules. Operating expenses were also increased by bad debt costs due to potentially incorrect claim payments of \$9.2 million and increased administrative costs of \$2.4 million. The MHP Fund had a \$27.1 million operating loss for fiscal year 2004. During fiscal year 2004, the County General Fund transferred \$3.9 million as a subsidy. The Fund's fiscal year-end net assets balance decreased \$24.9 million to (\$11.3) million from the prior year-end. The reduction in net assets is primarily attributable to the operating loss.

The Arizona Long-Term Care System (ALTCS) Fund is a managed care, long-term care program operated by Maricopa Managed Care Systems (MMCS). Chronically ill and physically disabled patients receive medical services as a result of an annual contract with the Arizona Health Care Cost Containment System (AHCCCS). The ALTCS Fund had a 2.4 percent decrease in operating revenues and a 16 percent increase in operating expenses from the prior year resulting in a \$35.4 million operating loss for fiscal year 2004. During the fiscal year, the County General Fund transferred \$29.3 million as a subsidy. The Fund's fiscal year-end net assets balance decreased \$9.1 million to \$17.2 million from the prior year-end. The reduction in net assets is attributable to a \$40.2 million increase in total expenses from the prior year, primarily medical expenses of \$22.9 million, administrative expenses of \$3.3 million and bad debt expenses of \$10.1 million due to potentially incorrect claim payments.

## Maricopa County Management's Discussion and Analysis

The Non-AHCCCS Health Plans Fund accounts for two health care programs; Health Select is a managed health care program offered to employees, spouses and their families and Senior Select is a Medicare program operating under contract with the Federal government. The Non-AHCCCS operating revenues decreased by \$10.9 million or 14.4 percent from the prior year primarily due to the transfer of the Health Select program effective January 1, 2004, to the Employee Benefits Trust Fund (Internal Service Fund). Operating expenses increased \$7.7 million or 10.3 percent resulting from the delay and problems associated with processing claims and the high demand for Senior Select services. This resulted in the Non-AHCCCS Health Plans Fund operating loss of \$23.1 million for fiscal year 2004. During the fiscal year, the County General Fund transferred \$11.7 million as a subsidy. The Fund's fiscal year-end net assets balance decreased \$10.0 million from the prior year to (\$10.0) million at the current year-end.

The following table shows actual revenues, expenses and results of operations for the current fiscal year for all proprietary funds (enterprise funds).

### Statement of Revenues, Expenses and Changes in Fund Net Assets Proprietary Funds (in millions)

	2004	2003	Increase/(Decrease)

Transfers, net	58.3	16.5	41.8	253.3
Change in net assets	\$ (17.7)	\$ 1.8	\$ (19.5)	(1,083.3)

At June 30, 2004, the net assets for the proprietary funds (business-type activities) decreased by \$19.5 million. The Maricopa Integrated Health System makes up 94.8 percent of the net assets of the business-type activities. The Maricopa Integrated Health System accounts for only 4.1 percent of the County's total net assets even though it comprises approximately 35.5 percent and 39.1 percent of the County's revenues and expenses, respectively.

The net loss before transfers for the proprietary funds of \$76.0 million resulted primarily from net losses of more than \$28.8 million from the Maricopa Health Plan Fund, \$38.4 million from the ALTCS Fund and \$21.7 million from the Non-AHCCCS Health Plans Fund. The losses were attributed to higher expenses for medical claims related to an increase in membership for the Maricopa Health Plan and Non-AHCCCS Senior Select Plan, claim processing delays resulting in some prior years claims being paid in the current year, duplicate payments, and overpayments. The problems with the claims processing resulted in bad debt expense of approximately \$20 million. The losses were partially offset by income from the Medical Center Fund before transfers of \$13.9 million. The County General Fund transferred \$60.2 million in operating subsidies to the Medical Center and the various health care programs.

Subsequent to June 30, 2004, the Medical Center was transferred to the voter approved Special Health Care District. In addition, effective December 31, 2004, the Senior Select health care program was discontinued by the County, and effective September 30, 2005, the AHCCCS—Acute Health Care program and the AHCCCS—ALTCS health care program were discontinued by the County. The County is liable for the outstanding liabilities prior to the discontinued operations of these health care programs. Additional information can be found in the notes to the financial statements (Note 21- Subsequent Events).

# Maricopa County Management's Discussion and Analysis

## General Fund Budgetary Highlights

The difference between the original budget and the final amended budget for the General Fund resulted in a negligible change for revenue but a decrease in expenditures of \$60.3 million. The expenditures were mostly reclassified to transfers out in the amount of \$47 million and were used to subsidize the County health care programs.

Significant favorable expenditure variances as compared to the budget were incurred in the General Government Department (general government function) and the Health Care Mandates Department (health, welfare and sanitation function) of \$105 million. The savings for health, welfare and sanitation expenditures were due to lower than anticipated payouts for hospital pre-AHCCCS claims settlements and the General Government Department had less expenditures from amounts set aside for contingencies and reserves.

## Capital Assets and Long-Term Liabilities

### Capital Assets

The County's capital assets balance for its governmental and business-type activities as of June 30, 2004, amounted to almost \$2.0 billion (net of accumulated depreciation). Capital assets include land, buildings and improvements, infrastructure, machinery and equipment, and construction in progress. The net increase of \$155.5 million in the County's capital assets balance for the current period was 8.4 percent.

The most significant impact on the increase in capital assets for the fiscal year ended June 30, 2004, was the ongoing construction of the adult and juvenile detention facilities. For these facilities, current year expenditures were \$77.8 million. During fiscal year 2004, many of the capital projects relating to the jail facilities and reported in prior years as construction in progress were capitalized as completed capital assets. This accounts for the majority of the change between buildings net of accumulated depreciation and construction in progress. The Transportation Department and the Flood Control District provided a net addition to capital assets including land, construction in progress and completed infrastructure of \$47.3 million and \$32.0 million, respectively.

Capital assets for the governmental and business-type activities are presented below (in millions) to illustrate changes from the prior year:

	Governmental Activities		Business-type Activities		Total		% Chg P/Y

\* The governmental activities capital assets for fiscal year 2003 were adjusted (see Note 3 and Note 10 to the financial statements for clarification).

The County reported infrastructure assets acquired in the government-wide financial statements, as required by GASB Statement No. 34. Infrastructure additions are reported in capital outlay expenditures within the Transportation Capital Projects Fund and the Flood Control Capital Projects Fund. GASB Statement No. 34 also requires the retroactive reporting of all infrastructure assets acquired prior to July 1,

## **Maricopa County Management's Discussion and Analysis**

---

2001, to be reported by the fiscal year ending June 30, 2006. All current and prior years' infrastructure assets of the Transportation Department are reported on the government-wide financial statements. Infrastructure assets acquired prior to July 1, 2001, are reported at estimated historical cost. Infrastructure assets acquired subsequent to that date are reported at historical cost. For the Flood Control District, only infrastructure assets acquired after July 1, 2001, are reported and these assets are reported at historical cost.

The Transportation Department infrastructure assets consist of a roadway system and a bridge system. Both systems are reported under the modified approach, which means the County will maintain the assets using an asset management system and will document that the infrastructure assets are being preserved at the established condition level.

The Flood Control District accounts for the remaining infrastructure assets, which consists of drainage systems, dams, flood channels and canals. Of the total Flood Control District infrastructure assets reported on the financial statements, \$140,511 (net of accumulated depreciation) represents completed projects as of June 30, 2004.

At June 30, 2004, the County's infrastructure assets totaled \$703.8 million reported on the government-wide financial statements as infrastructure - \$456.6 million, construction in progress - \$85.0 million and land associated with infrastructure assets - \$162.2 million. Additional information regarding infrastructure assets can be found in the Notes to the Financial Statements (Note 1 - Summary of Significant Accounting Policies and Note 10 - Capital Assets), and in the Required Supplementary Information Modified Approach for Infrastructure Assets page 89.

### **Long-Term Liabilities**

At June 30, 2004, the County had total long-term liabilities (noncurrent liabilities due within one year and more than one year) outstanding of \$297.0 million, which represents a \$32.1 million decrease from the restated prior year balance of \$329.1 million. The restatement was necessary for governmental activities to eliminate the activity associated with the Housing Authority of Maricopa County. Effective July 1, 2003, the Housing Department (nonmajor governmental fund) became the Housing Authority of Maricopa County and will be reported as a discretely presented component unit. In addition, the Housing Authority wrote off all amounts applicable to the Authority bonds and loans of \$50,811 and \$1,641,310, respectively, in accordance with the Department of Housing and Urban Development (HUD) GAAP Flyer No. 4 which states that HUD and not the Housing Authority is directly obligated for the debt. See Note 2 – Reporting Changes, Note 3 – Beginning Balances Restated and Note 12 - Long-Term Liabilities to the Financial Statements for additional information. The majority of the decrease is attributable to debt service payments made during fiscal year 2004 for the County's general obligation bonds (\$19.3 million), Stadium District revenue bonds (\$2 million), certificates of participation payable (\$10.9 million), and a net decrease in capital lease agreements (\$8.6 million). The largest components of long-term liabilities at June 30, 2004, consisted of General Obligation Bonds - \$20,165,000, Lease Revenue Bonds - \$110,240,000, Stadium District Revenue Bonds - \$55,225,000, claims and judgments payable - \$19,990,000 and reported claims and incurred but not reported claims - \$47,671,763.

On December 3, 2003, the Maricopa County Public Finance Corporation issued \$16,880,000 of Lease Revenue Refunding Bonds to refund various certificates of participation, series 2000, 1996, 1994, and 1993 totaling \$10,074,452, and capital leases and an installment purchase contract totaling \$11,104,817. The County contributed \$4,461,354 to facilitate the refunding. As a result of the current refunding, the County reduced its total debt service requirements by \$2,692,948, which resulted in an economic gain of \$1,234,420. (See Note 12 – Long Term Liabilities for additional information).

On November 11, 2003, Fitch upgraded the County's general obligation bond rating to AA+ from AA. Fitch also upgraded the County's certificate of participation and lease revenue bond ratings to AA from AA-. The following has been excerpted from the November 11, 2003, Fitch Press Release:

## Maricopa County Management's Discussion and Analysis

---

"The upgrades are based on the imminent transfer of the county's health care delivery system to a separate voter-approved special health district with its own property tax levy. Although they've improved recently, the health care system's finances represented a potential fiscal liability to the county's general fund in the event it should require larger operating subsidies to remain operational. The upgrades also reflect continued financial improvement despite slower growth in the county's predominant revenue source, a record of continued economic growth and diversification, successful fiscal reforms, and the county's very modest debt profile.

Although taxes derived from consumer spending have slowed over the last two fiscal years, the property tax base has still demonstrated healthy increases. Sound fiscal stewardship has enabled the county to meet the service delivery demands of a burgeoning populace while accumulating significant financial resources. These reserves provide the county with vast flexibility to maintain its modest debt profile by financing its capital needs from available resources."

General obligation bonds are paid from the secondary property tax levy. At June 30, 2004, net general obligation debt was \$20,165,000 (0.07% of taxable property), while the statutory allowable 6 percent limit was \$1,648,679,252 and the voter approved 15 percent limit was \$4,121,698,129. On July 1, 2004, the County will make the final debt service payment on its general obligation bonds.

Lease revenue bonds applicable to governmental activities are paid from the Lease Revenue Fund (debt service fund) that was funded in prior years by transfers from the General Fund and is predominantly unrestricted. At June 30, 2004, the fund balance in the Lease Revenue Fund to pay future liabilities was \$85,005,685. Proceeds from the bonds are currently being used for capital projects.

Stadium District revenue bonds are special obligations of the District. The bonds are payable solely from pledged revenues, consisting of car rental surcharges levied and collected by the Stadium District pursuant to A.R.S. §48-4234. On June 5, 2002, the Stadium District issued Revenue Refunding Bonds in the amount of \$58,225,000 (par value) of which \$55,225,000 remains outstanding.

Claims and judgments payable of \$19.99 million are estimated long-term liabilities for claims pertaining to environmental liabilities and indigent health care litigation. Claims and judgments payable increased by \$4.0 million from the prior year primarily related to environmental liabilities. Claims and judgments payable are paid from the General Fund.

Reported and incurred but not reported claims applicable to governmental activities of \$47.7 million are reported in the Risk Management and Employee Benefits Trust funds (internal service funds). This is an increase of \$4.2 million from the prior year primarily related to medical claims from the Health Select medical and related pharmacy program that was transferred from the Maricopa Integrated Health System to the Employee Benefits Trust fund. The claims are actuarial estimates for the County's self-insured portion of future claims for general litigation related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disasters; and certain health benefits that are paid through the operations of the funds. Additional information regarding long-term liabilities can be found in the notes to the financial statements (Note 12 – Long-Term Liabilities and Note 16 – Risk Management to the Financial Statements).

### **Economic Factors and Next Year's Budget and Rates**

- Maricopa County's economy is improving, and the economic recovery is in place and accelerating, according to many of the local economists. "The outlook remains promising, both in absolute terms and relative terms," according to Elliott D. Pollack & Company, economist for the County.

# Maricopa County Management's Discussion and Analysis

---

- The population in Maricopa County continues to grow at a rapid pace. The U.S. Census Bureau reports that Maricopa County's population increased by 2.9% in 2003. The unemployment rate in Maricopa County according to [www.workforce.az.gov](http://www.workforce.az.gov) for June 2004 was 4.4 percent, which remains below both the state (5.0%) and national average (4.6%). The growth in spending and economic output is strong enough to virtually force the business community to increase hiring to meet the demand. Many corporate firms that are already based here are growing, which is contributing thousands more jobs. Forecasts show that Arizona's economy will add more than 191,000 jobs in the next two years.
- As reported by the U.S. Census Bureau, Maricopa County continued to place second in the nation in gaining residents from April 2000 to July 2003. According to U.S. Census reports, Maricopa County's projected increase in population between 2000 and 2003 is estimated to be 10.3%.
- Benefits to Maricopa County that are contributing factors of improving the economy include quality of life, cost of living, a skilled work force, good universities and a favorable business climate. Phoenix, a major city within Maricopa County, was ranked 7<sup>th</sup> in the 6<sup>th</sup> annual "America's 50 Hottest Cities" report, published in the January 2004 issue of Expansion Management magazine.

As part of the annual budget planning process, the County's Office of Management and Budget developed a financial forecast to assist in both short and long range financial planning. This forecast provides a conservative estimate of the County's fiscal condition through the next five years given a realistic economic forecast, current Board policies and existing laws. The forecast was instrumental in the determination of the fiscal year 2005 budget and tax rate. It was based on the following assumptions:

- The Maricopa Integrated Health System (MIHS) will transition to a Special Health Care District. The voters of Maricopa County approved the new district on November 4, 2003. The transition to the newly elected Board will take place on January 1, 2005.
- The extension of the Jail Excise Tax (propositions 400 and 401) was approved by the voters in the general election in November 2002. The tax will fund the operation costs of the new jail and juvenile detention facilities. Many new jail facilities will be operational in fiscal year 2005.
- The County has absorbed many program costs that had shifted from the State to the County. The County will work collaboratively with the State to readdress these issues in the 2005 legislative session. The cost shifts are estimated to be approximately \$60 million.

Even though the growth and demand for services is high, the property tax rate for the fiscal year 2005 budget was reduced to 1.4748. This is the second time in the last five budget years that the property tax overall levy had been reduced.

At the end of the fiscal year, unreserved fund balance for the General Fund was \$315.9, or 49.3 percent of total General Fund expenditures. Unreserved fund balance increased by almost 9.38 percent from the prior year. This is due to actual revenues in excess of actual expenditures. In accordance with Arizona Revised Statutes (A.R.S.), the entire amount will be budgeted in the next fiscal year. A.R.S. §42-17151 requires that total estimated sources of revenue must equal the total estimated expenditures in the budget for the current fiscal year. The estimated expenditures may include an amount for unanticipated contingencies or emergencies, per A.R.S. §42-17102.

## Definitions of Government-wide Financial Statements and Listing of Major Funds

---

### Government-wide Financial Statements

The **Statement of Net Assets** presents information on all of Maricopa County's assets and liabilities, with the difference between the two reported as net assets.

The **Statement of Activities** presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The above two statements are presented utilizing the following types of activities:

**Governmental Activities** – generally are financed through taxes and intergovernmental revenues.

**Business-type Activities** – are financed in whole or in part by fees charged to external parties.

### Major Funds

**General Fund** – is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

### Special Revenue Funds

**Jail Operations Fund** – was established under the authority of propositions 400 and 401, which were passed in the General Election of November 3, 1998. These propositions authorized a temporary 1/5 of one-cent sales tax to be used for the construction and operation of adult and juvenile detention facilities. On November 5, 2002, the voters approved the extension of the 1/5 of one-cent sales tax in the General Election to be used for jail facility operations. The extension begins in the month following the expiration of the original tax and may continue for not more than twenty years after the date the tax collection begins. The Jail Operations Fund accounts for the receipt of tax revenue, jail operations expenditures, and transfers to the Jail Construction Fund for construction of the adult and juvenile detention facilities.

### Debt Service Funds

**General Obligation Fund** – accounts for debt service on all various purpose general obligation bonds. Funding is provided by the County's secondary property tax revenues, which may be used only for debt service.

**Lease Revenue Fund** – accounts for the debt service on the Lease Revenue Bonds, Series 2001, and the Lease Revenue Refunding Bonds, Series 2003. Funding is provided by transfers from the General Fund.

### Enterprise Funds

**Medical Center Fund** – provides quality, cost competitive health care and health professional education to assure the health security of individuals, families, and the community.

**Maricopa Health Plan Fund** – is an ambulatory health care program operated by Maricopa Managed Care Systems (MMCS). MMCS contracts with the Arizona Health Care Cost Containment System (AHCCCS), which provides monthly capitation revenues based on Acute Health Care program enrollment.

**Arizona Long-Term Care System (ALTCS) Fund** – is a managed care, long-term care program operated by Maricopa Managed Care Systems (MMCS). Chronically ill and physically disabled patients receive medical services as a result of an annual contract with the Arizona Health Care Cost Containment System (AHCCCS).

**Non-AHCCCS Health Plans Fund** – The Non-AHCCCS health care programs are primarily:

- *Health Select* - a managed health care program offered to employees, spouses and their families;
- *Senior Select* - a Medicare program operating under contract with the Federal government.

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Capital assets used in governmental activities are not financial resources and therefore, are not reported in the funds.

Other assets are not available to pay for current period expenditures and therefore, are deferred in the funds.

Internal service funds are used by management to charge the costs of equipment services, telecommunications, reprographics, risk management, employee benefits, and the sheriff warehouse to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Assets.

Some long-term liabilities and compensated absences are not due and payable shortly after June 30, 2004, therefore, are not reported in the funds.

**Maricopa County**  
**Reconciliation of the Statement of Revenues, Expenditures,**  
**and Changes in Fund Balances of Governmental Funds to the**  
**Statement of Activities**

For the Fiscal Year Ended June 30, 2004

---

Net change in fund balances – total governmental funds (page 29) \$ 39,000,819

Amounts reported for governmental activities in the Statement of Activities pages 24  
– 25 are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. 212,868,024

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net assets. (48,154,935)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. 2,844,616

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. 30,491,770

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. (7,702,218)

Internal service funds are used by management to charge the costs of equipment services, telecommunications, reprographics, risk management, employee benefits, and the sheriff warehouse to individual funds. The net revenue of internal service funds is reported with governmental activities. 8,550,318

Change in net assets of governmental activities (page 25) \$ 237,898,394

## Notes to the Financial Statements

For the Fiscal Year Ended June 30, 2004

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Maricopa County conform to generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

#### A. Reporting Entity

Maricopa County is a general purpose local government governed by a separately elected board of five county supervisors. The accompanying financial statements present the activities of the County (the primary government) and its component units.

Component units are legally separate entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are in substance part of the County's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the combined financial statements to emphasize they are legally separate from the County. Each blended and discretely presented component unit discussed below has a June 30 year-end.

The reporting entity is comprised of the primary government, Maricopa County Flood Control District, Maricopa County Library District, Maricopa County Public Finance Corporation, Maricopa County Special Assessment Districts, Maricopa County Stadium District, Maricopa County Street Lighting Districts, and the Housing Authority of Maricopa County.

The blended component units are as follows:

#### Maricopa County Flood Control District

The Maricopa County Flood Control District is a legally separate entity that provides flood control facilities and regulates floodplains and drainage to prevent flooding of property in Maricopa County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Flood Control District, it is able to significantly influence the programs, projects, activities, or level of services provided by the District; therefore, the District is considered a blended component unit of the County.

#### Maricopa County Library District

The Maricopa County Library District is a legally separate entity that provides and maintains library services for the residents of Maricopa County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Library District, it is able to significantly influence the programs, projects, activities, or level of services provided by the District; therefore, the District is considered a blended component unit of the County.

#### Maricopa County Public Finance Corporation

Maricopa County Public Finance Corporation is a nonprofit corporation created by the Maricopa County Board of Supervisors that exists primarily to assist the County in the acquisition, construction, and improvement of County facilities, including real property and personal property. The Board of Directors of the Public Finance Corporation is subject to the approval of the County Board of Supervisors and the corporation exists primarily for the benefit of the County; therefore, the corporation is considered a blended component unit of the County. The corporation issued certificates of participation and lease revenue bonds that evidence undivided proportionate interests in rent payments to be made under the lease agreements, with an option to purchase, between Maricopa County and the Corporation. Since this debt is in substance the County's obligation, these liabilities and resulting assets are reported on the County's financial statements.

## Maricopa County Special Assessment Districts

The Special Assessment Districts are legally separate entities that provide improvements to various properties within the County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Maricopa County Special Assessment Districts, it is able to significantly influence the activities or level of services provided by the Districts; therefore, the Districts are considered a blended component unit of the County.

## Maricopa County Stadium District

The Maricopa County Stadium District is a legally separate entity that provides regional leadership and fiscal resources to assure the presence of Major League Baseball in Maricopa County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Stadium District, it is able to significantly influence the programs, projects, activities, or level of services provided by the District; therefore, the District is considered a blended component unit of the County.

Complete financial statements for the Maricopa County Stadium District may be obtained at the entity's administrative office listed below:

Maricopa County Stadium District  
Bank One Ballpark

Phoenix, Arizona 85004

## Maricopa County Street Lighting Districts

The Street Lighting Districts are legally separate entities that provide street lighting in areas of the County that are not under local city jurisdictions. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Maricopa County Street Lighting Districts, the Districts are considered a blended component unit of the County.

The discretely presented component unit follows:

## Housing Authority of Maricopa County

On July 1, 2003, the Housing Authority of Maricopa County became a legally separate entity pursuant to A.R.S. §36-1404. The Housing Authority provides efficient and affordable rental housing to low-income households of Maricopa County. Each member of the Maricopa County Board of Supervisors appoints one member to the Board of Commissioners while the sixth member shall be based on the recommendation of the County Administrative Officer and the seventh member shall be appointed by a majority vote of the Maricopa County Board of Supervisors. The County does not have the ability to impose its will on the Housing Authority. The Housing Authority is a discretely presented component unit, as the Maricopa County Board of Supervisors may dissolve the Authority at any time at the sole discretion of the County and therefore, a financial benefit or burden exists.

Complete financial statements for the Housing Authority of Maricopa County may be obtained at the entity's administrative office listed below:

## Related Organization

The Industrial Development Authority of Maricopa County (Authority) is a legally separate entity that was created to assist in the financing of commercial and industrial enterprises; safe, sanitary, and affordable housing; and healthcare facilities. The Authority fulfills its function through the issuance of tax exempt or taxable revenue bonds. The County Board of Supervisors appoints the Authority's Board of Directors. The Authority's operations are completely separate from the County and the County is not financially accountable for the Authority. Therefore, the financial activities of the Authority have not been included in the accompanying financial statements.

## B. Basis of Presentation

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the County as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the usefulness of the information.

**Government-wide financial statements** – provide information about the primary government (the County) and its component units. The statements include a statement of net assets and a statement of activities. These statements report the financial activities of the overall government, except for fiduciary activities. They also distinguish between the governmental and business-type activities of the County and between the County and its discretely presented component unit. Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities and segment of its business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The County allocates indirect expenses to programs or functions. Program revenues include:

- Charges to customers or applicants for goods, services, or privileges provided,
- Operating grants and contributions, and
- Capital grants and contributions, including special assessments.

Revenues that are not classified as program revenues, including internally dedicated resources and all County levied taxes or taxes not levied by the County that are not restricted to a specific program, are reported as general revenues.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double counting of internal activities. However, charges for interfund services provided and used are not eliminated if doing so would distort the direct costs and program revenues reported by the departments concerned.

**Fund financial statements** – provide information about the County's funds, including fiduciary funds and blended component units. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Fiduciary funds are aggregated and reported by fund type.

## Notes to the Financial Statements

(Continued)

---

Proprietary fund revenues and expenses are classified as either operating or nonoperating. Operating revenues and expenses generally result from transactions associated with the fund's principal activity. Accordingly, revenues, such as user charges and net patient charges, in which each party receives and gives up essentially equal values, are reported as operating revenues. Nonoperating revenues, such as subsidies and investment income, result from transactions in which the parties do not exchange equal values. Revenues generated by ancillary activities are also reported as nonoperating revenues. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. Other expenses, such as interest expense, are considered to be nonoperating expenses.

The County reports the following major governmental funds:

The General Fund – is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Jail Operations Fund – was established under the authority of propositions 400 and 401, which were passed in the General Election of November 3, 1998. These propositions authorized a temporary 1/5 of one-cent sales tax to be used for the construction and operation of adult and juvenile detention facilities. On November 5, 2002, the voters approved the extension of the 1/5 of one-cent sales tax in the General Election. The extension begins in the month following the expiration of the original tax and may continue for not more than twenty years after the date the tax collection begins. The Jail Operations Fund accounts for the jail tax revenue and transfers from the General Fund for maintenance of effort and jail operations expenditures. The Jail Operations Fund transfers monies to the Jail Construction Fund for the construction of the jail facilities. The amount to be transferred to the Jail Construction Fund for any given year is determined through the budget planning process and tied to the jail tax collection projection and construction schedules.

The General Obligation Fund – accounts for debt service on all various purpose general obligation bonds. Funding is provided by the County's secondary property tax revenues, which may be used only for debt service.

The Lease Revenue Fund – accounts for the debt service on the Lease Revenue Bonds, Series 2001, and the Lease Revenue Refunding Bonds, Series 2003. Funding is provided by transfers from the General Fund.

The County reports the following major enterprise funds:

The Medical Center Fund – accounts for the operations of the Maricopa Medical Center which provides quality, cost competitive health care and health professional education to assure the health security of individuals, families, and the community.

The Maricopa Health Plan Fund – is an ambulatory health care program operated by Maricopa Managed Care Systems (MMCS). MMCS contracts with the Arizona Health Care Cost Containment System (AHCCCS) which provides monthly capitation revenues based on Acute Health Care program enrollment.

The Arizona Long-Term Care System (ALTCS) Fund – is a managed care, long-term care program operated by Maricopa Managed Care Systems (MMCS). Chronically ill and physically disabled patients receive medical services as a result of an annual contract with the Arizona Health Care Cost Containment System (AHCCCS).

The Non-AHCCCS Health Plans Fund – accounts for the operations of the Non-AHCCCS health care programs consisting primarily of the following:

Health Select – a managed health care program offered to employees, spouses and their families and Senior Select – a Medicare program operating under contract with the Federal government.

The County reports the following fund types:

The internal service funds – account for automotive maintenance and service, telecommunications services, printing and duplicating services, insurance services, self-insured employee benefits, and warehouse services provided to County departments or to other governments on a cost reimbursement basis.

The investment trust funds – account for pooled assets held and invested by the County Treasurer on behalf of other governmental entities.

The agency funds – account for assets held by the County as an agent for other governments and individuals.

## C. Basis of Accounting

The government-wide, proprietary fund, and fiduciary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Grants and donations are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital lease agreements are reported as other financing sources.

Under the terms of grant agreements, the County funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred there are both restricted and unrestricted net assets available to finance the program. The County applies grant resources to such programs before using general revenues.

The County's business-type activities, enterprise funds, and the discretely presented component unit of the County follow FASB Statements and Interpretations issued on or before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements. The County has chosen the option to not follow FASB Statements and Interpretations issued after November 30, 1989.

## D. Cash and Investments

For purposes of its statements of cash flows, the County considers only those highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Nonparticipating interest-earning investment contracts are stated at cost. Money market investments and participating interest-earning investment contracts with a remaining maturity of one year or less at time of purchase are stated at amortized cost. All other investments are stated at fair value.

# Notes to the Financial Statements

(Continued)

---

## E. Inventories

Inventories of the governmental funds consist of expendable supplies held for consumption and are recorded as expenditures at the time of purchase. Amounts on hand at year-end are shown on the balance sheet as an asset for informational purposes only and are offset by a fund balance reserve to indicate that they do not constitute "available spendable resources." These inventories are stated at weighted-average cost.

Inventories of the proprietary funds are recorded as assets when purchased and expensed when consumed. The amount shown on the statement of net assets for the enterprise funds is valued at cost using the first-in, first-out method. The amount shown on the statement of net assets for the internal service funds is valued at cost using the moving average method.

## F. Property Tax Calendar

The County levies real property taxes and commercial personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

During the year, the County also levies mobile home personal property taxes that are due the second Monday of the month following receipt of the tax notice and become delinquent 30 days later.

A lien assessed against real and personal property attaches on the first day of January preceding assessment and levy.

## G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the government-wide statements and the proprietary funds. Capital assets are defined as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

For infrastructure assets owned prior to fiscal year 2002, the County estimated the Department of Transportation's historical cost for these infrastructure assets. The fair market value for right-of-way assets was estimated based on current regional land acquisitions and deflated by the trended growth rate as determined by the County assessed valuation from the State of Arizona Department of Revenue Abstract of the Assessment Roll for vacant land, agriculture and government property not including legally exempt land. The fair market value for roadway system assets was estimated based on current construction costs and deflated using the Price Trends for Federal-aid Highway Construction, published in Price Trends for Federal-aid Highway Construction by the U.S. Department of Transportation, Federal Highway Administration, Office of Program Administration, and Office of Infrastructure.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the primary government and the discretely presented component unit is depreciated using the straight-line method over the following estimated useful lives:

# Notes to the Financial Statements

(Continued)

TYPE OF ASSETS	ESTIMATED USEFUL LIFE (IN YEARS)		DISCRETELY PRESENTED COMPONENT UNIT
	PRIMARY GOVERNMENT		
Buildings	20	- 50	20 - 30
Infrastructure	20	- 50	
Autos and trucks	3	- 10	7
Other equipment	3	- 20	7

All infrastructure assets maintained by the County Department of Transportation, consisting of roadways, bridges and related assets, are reported on the government-wide financial statements. These assets will not be depreciated as they are maintained using the modified approach. Under the modified approach, the County's roadway and bridge systems are being preserved at a specified condition level established by the County. For information on the modified approach see Required Supplementary Information – Modified Approach for Infrastructure Assets. The Flood Control District accounts for the County's remaining infrastructure assets consisting of drainage systems, dams, flood channels and canals. For the Flood Control District, only infrastructure assets acquired since fiscal year 2002 are reported on the government-wide financial statements. Flood Control District capital assets reported as infrastructure will be depreciated starting in fiscal year 2004, as assets previously reported as construction in progress have been completed and placed in service.

## H. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments.

## I. Compensated Absences

Compensated absences consist of vacation leave and a calculated amount of sick leave earned by employees based on services already rendered. Employees may accumulate up to 240 hours of vacation leave, but any vacation hours in excess of the maximum amount that are unused at calendar year-end convert to sick leave. Upon termination of employment, all unused vacation benefits are paid to employees. Accordingly, vacation benefits are accrued as a liability in the financial statements.

Employees may accumulate an unlimited number of sick leave hours. Generally, sick leave benefits provide for ordinary sick pay and are cumulative but are forfeited upon termination of employment. Because sick leave benefits do not vest with employees, a liability for sick leave benefits is not accrued in the financial statements. However, upon retirement, County employees with accumulated sick leave in excess of 1,000 hours are entitled to a \$3,000 bonus. The amount of such bonuses is accrued as a liability.

Compensated absences are substantially paid within one year from fiscal year end and are therefore reported as a current liability on the government-wide financial statement.

## NOTE 2 – REPORTING CHANGES

Effective July 1, 2003, the County Board of Supervisors authorized the creation of the Housing Authority pursuant to A.R.S. §36-1404. The Housing Authority will be reported as a discretely presented component unit. In prior years, the Housing Department Fund (special revenue fund) was part of the primary government and was reported as a nonmajor governmental fund. This constitutes a change in reporting entity.

Beginning in fiscal year 2004, the County established the Flood Control Grants Fund (special revenue fund) and the Medical Examiner Grants Fund (special revenue fund). Both are nonmajor governmental funds.

## Notes to the Financial Statements (Continued)

The County renamed several special revenue funds as follows. All are nonmajor governmental funds.

<u>New Name</u>	<u>Old Name</u>
Animal Care and Control	Animal Control
Animal Care and Control Donations	Animal Control Donations
Animal Care and Control Field Services	Animal Control Field Services
Animal Care and Control Grants and Donations	Animal Control Grants
Juvenile Probation Grants	Juvenile Court Grants
Juvenile Probation Special Fees	Juvenile Probation

### NOTE 3 – BEGINNING BALANCES RESTATED

In fiscal year 2003, the Housing Department was reported as a nonmajor governmental fund included in Governmental Activities. Effective July 1, 2003, the Housing Department became the Housing Authority of Maricopa County (Authority) and will now be reported as a discretely presented component unit.

As a result of the creation of the Housing Authority, the County restated beginning net assets of Governmental Activities and the beginning fund balance of the Fund financial statements total governmental funds as follows:

	<u>Governmental Activities</u>	<u>Total Governmental Funds</u>
Net assets/fund balance reported as of June 30, 2003	\$ 2,204,587,032	\$ 675,992,361
Less: Delete Housing Department Fund for discrete presentation	<u>(29,134,574)</u>	<u>(1,922,398)</u>
Net assets/fund balance as of July 1, 2003, as restated	<u>\$ 2,175,452,458</u>	<u>\$ 674,069,963</u>

In addition, effective fiscal year 2004, the Authority had implemented the Department of Housing and Urban Development (HUD) GAAP Flyer No. 4 issued in January 2000 in relation to HUD debt. The debt had historically been shown as a long-term liability in the County's financial statements under Housing Department bonds and loans payable. As a result of HUD GAAP Flyer No. 4, the Authority had decided to write-off all amounts related to the long-term liabilities as of July 1, 2003, as HUD secures this debt through an annual contributions contract. The Authority's beginning net assets were restated as follows for the write-off of certain assets and expenses related to long-term debt and to adjust compensated absences, allowance for doubtful accounts, and accumulated depreciation for misstatements.

The beginning net assets of the Housing Authority Component Unit were adjusted for the above as follows:

Housing Department Fund net assets reported in Governmental Activities as of June 30, 2003	\$ 29,134,574
Remove housing bonds and loans payable as of June 30, 2003	1,692,121
Remove accrued interest payable as of June 30, 2003	73,530
Remove HUD contributions receivable related to long-term debt as of June 30, 2003	(250,705)
Adjust to eliminate allowance for doubtful accounts previously reported for long-term note receivable	232,853
Adjust for errors in compensated absences as of June 30, 2003	(95,679)
Adjust for errors in accumulated depreciation as of June 30, 2003	9,411
Housing Authority net assets as of July 1, 2003, as restated	<u>\$ 30,796,105</u>

### NOTE 4 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Governmental Funds Balance Sheet includes a reconciliation between fund balances – total governmental funds and net assets – Governmental Activities as reported in the government-wide Statement of Net Assets. The details of this reconciliation follow:

Fund balances – total governmental funds \$ 711,344,649

Capital assets used in governmental activities are not financial resources and therefore, are not reported in the funds.

Land	\$ 267,945,344
Buildings and improvements	1,128,207,324
Machinery and equipment	165,062,018
Infrastructure	456,642,003
Construction in progress	168,530,055
Accumulated depreciation	(289,273,735)
Net governmental funds capital assets at June 30, 2004	<u>\$ 1,897,113,009</u>

Other assets are not available to pay for current period expenditures and therefore, are deferred in the funds.

Deferred revenue for property taxes receivable at June 30, 2004	\$ 7,602,537
Deferred revenue for grant revenues receivable at June 30, 2004	9,781,804
Deferred revenue for contributions received at June 30, 2004	2,860,000
	<u>\$ 20,244,341</u>

Internal service funds are used by management to charge the costs of equipment services, telecommunications, reprographics, risk management, employee benefits, and the sheriff warehouse to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Assets. \$ 2,736,185

Some long-term liabilities and compensated absences are not due and payable shortly after June 30, 2004, and therefore, are not reported in the funds.

Noncurrent lease revenue bonds due in more than one year at June 30, 2004	\$ (85,894,077)
Stadium District revenue bonds payable at June 30, 2004	(55,225,000)
Stadium District contractual obligations payable at June 30, 2004	(6,428,888)

Claims and judgments payable at June 30, 2004	(19,990,000)
Governmental funds compensated absences payable at June 30, 2004	(35,635,566)
Accrued interest payable at June 30, 2004	(247,307)
	<u>\$ (218,087,332)</u>

Net assets of governmental activities \$ 2,413,350,852

## Notes to the Financial Statements

### (Continued)

The governmental fund reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances is a reconciliation between net changes in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government-wide Statement of Activities. The details of this reconciliation follows:

Net change in fund balances – total governmental funds	\$ 39,000,819
--	---------------

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Governmental funds capital outlay	\$ 248,465,695
Government-wide depreciation expense for the year ended June 30, 2004	(36,017,001)
Add: Internal service funds depreciation expense for the year ended June 30, 2004	419,330
	<u>\$ 212,868,024</u>

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net assets.

Net value of disposed capital assets for the year ended June 30, 2004	\$ (19,894,814)
Adjustment for the net value of assets capitalized in the current year but acquired in prior years	3,228,526
Construction in progress, expenditures not capitalized, deletions or infrastructure assets transferred to other municipalities	(31,488,647)
	<u>\$ (48,154,935)</u>

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Collections of deferred revenues plus current-year grant revenues exceeding amounts reported as earned for the year ended June 30, 2004	\$ (1,228,238)
Property taxes earned during the year ended June 30, 2004	1,212,854
Contribution revenue earned during the year ended June 30, 2004	2,860,000
	<u>\$ 2,844,616</u>

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal payments on bonds	\$ 31,384,993
Proceeds from capital leases	(6,333,484)
Premium on bonds	444,450
Principal payments on certificates of participation	5,808,084
Principal payments on capital leases	14,801,501
Deferred issuance costs	(168,525)
Proceeds from issuance of lease revenue bonds	(15,598,262)
Accrued interest payable on long-term debt	153,013
	<u>\$ 30,491,770</u>

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds.

Increase in employee compensation payable	\$ (2,015,025)
Decrease in reserve for inventories	(1,726,133)
Increase in claims and judgments payable	(3,961,060)
	<u>\$ (7,702,218)</u>

Internal service funds are used by management to charge the costs of equipment services, telecommunications, reprographics, risk management, employee benefits, and the sheriff warehouse to individual funds. The net revenue of internal service funds is reported with governmental activities.

Change in net assets of governmental activities	<u>\$ 237,898,394</u>

## NOTE 5 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

At June 30, 2004, the following funds reported deficits in fund balances or net assets.

FUND	DEFICIT
<b>Governmental Funds:</b>	
Jail Construction Fund	\$19,229,461
Accommodation Schools	535,118
Adult Probation Grants	137,158
Animal Care and Control Grants and Donations	1,232
CDBG Housing Trust	16,322
Clerk of Court Grants	140,416
Correctional Health Grants	39,110
County Attorney Grants	461,130
Emergency Management	80,804
Environmental Services Grants	1,565,069
Flood Control Grants	56,836
Human Services Grants	2,406,961
Juvenile Probation Grants	780,885
Library Grants	27,831
Medical Examiner Grants	217,476
Public Health	2,423,007
Sheriff Grants	371,934
Small Schools Service Program	23,756
Superior Court Grants	17,039
<b>Proprietary Funds:</b>	
Maricopa Health Plan	\$11,335,323
Non-AHCCCS Health Plans	10,009,464
Equipment Services	1,571,981
Risk Management	9,424,450

The Jail Construction Fund deficit in fund balance resulted from capital outlay during the year in excess of transfers in from the Jail Operations Fund. This is expected to be corrected through normal operations in fiscal years 2005 or 2006.

The deficits in fund balances or net assets for Adult Probation Grants, Clerk of Court Grants, Correctional Health Grants, County Attorney Grants, Emergency Management, Environmental Services Grants, Flood Control Grants, Human Services Grants, Juvenile Probation Grants, Library Grants, Medical Examiner Grants, Public Health, Sheriff Grants and Superior Court Grants Funds were attributed to the deferring of certain grant revenues. The County accrues grant revenue received within 60 days after year-end, as it is available and measurable. Revenues received after 60 days are considered not available and are therefore deferred.

The deficit in net assets for the Maricopa Health Plan and Non-AHCCCS Health Plans Funds was a result of increases in estimates for incurred but not reported medical claims from prior years and duplicate payments made to providers, both of which are currently being reviewed by the County.

The Risk Management Fund deficit is the result of the County Board of Supervisors electing to not fund the Risk Management Fund's unpaid claims. Consequently, the Risk Management Fund only billed user departments for operating costs and administrative expenses from fiscal year 1996 to fiscal year 1999, resulting in a fund deficit of \$23,321,519 at June 30, 1999. On July 1, 1999, Risk Management began billing user departments for actuarially determined paid claim estimates.

## Notes to the Financial Statements

(Continued)

The remaining deficits in fund balances or net assets resulted from operations during the year and are expected to be corrected through normal operations in fiscal year 2005.

### NOTE 6 – DEPOSITS AND INVESTMENTS

Arizona Revised Statutes (A.R.S.) authorize the County to invest public monies in the State Treasurer's investment pool; U.S. Treasury obligations; specified state and local government bonds; and interest-earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories. Statute requires collateral for demand deposits, certificates of deposit, and repurchase agreements at 101 percent of all deposits not covered by federal depository insurance.

**County Treasurer's Investment Pool** – Arizona Revised Statutes require community colleges, school districts, and other local governments to deposit certain public monies with the County Treasurer (see Note 7). Those monies are pooled with County monies for investment purposes.

At June 30, 2004, the investment pool had cash on hand of \$4,500. The carrying amount of the pool's total cash in bank was \$15,507,249 and the bank balance was \$17,597,709. Of the bank balance, \$100,000 was covered by federal depository insurance, and \$17,497,709 was covered by collateral held in the bank's custodial account with the Federal Reserve Bank and in the County's name in the bank's records.

At June 30, 2004, the investments in the County Treasurer's investment pool consisted of the following:

	Reported Amount	Fair Value
U.S. government securities	<u>\$ 2,214,570,056</u>	<u>\$ 2,214,570,056</u>

### NOTE 7 – CONDENSED FINANCIAL STATEMENTS OF COUNTY TREASURER’S INVESTMENT POOL

Arizona Revised Statutes require community colleges, school districts, and other local governments to deposit certain public monies with the County Treasurer. The Treasurer has a fiduciary responsibility to administer those and the County monies under his stewardship. The Treasurer invests, on a pool basis, all idle monies not specifically invested for a fund or program. In addition, the Treasurer determines the fair value of those pooled investments monthly and at June 30.

The County Treasurer’s investment pool is not registered with the Securities and Exchange Commission as an investment company and there is no regulatory oversight of its operations. The structure of the pool does not provide for shares and the County has not provided or obtained any legally binding guarantees to support the value of the participants’ investments.

Details of each major investment classification follows.

Investment Type	Principal	Interest Rates	Maturities	Fair Value	Reported Amount
U. S. government securities	\$2,200,391,282	0.96 – 4.33%	Up to 3 Years	\$ 2,214,570,056	\$2,214,570,056

### NOTE 11 – CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

At June 30, 2004, Maricopa County had the following major contractual commitments related to various capital projects. Commitments have been grouped into four major categories: Transportation Construction Projects, Flood Control Construction Projects, Construction and Maintenance of Adult and Juvenile Jail Facilities, and Construction of the Administration Center and various County facilities.

#### Transportation Construction Projects

At June 30, 2004, the Maricopa County Transportation Department had contractual commitments of \$8,354,558 for construction of various highway projects. Funding for these expenditures will be provided from Highway User Fuel Tax, the primary source of revenue for the Transportation Department. These projects are accounted for in the Transportation Capital Projects Fund (nonmajor governmental fund).

#### Flood Control Construction Projects

At June 30, 2004, the Maricopa County Flood Control District had contractual commitments of \$9,295,381 for the construction of various flood control projects. Funding for these expenditures will be provided from the Flood Control District's tax levy of property within Maricopa County, the primary source of revenue for the Flood Control District. These projects are accounted for in the Flood Control Capital Projects Fund (nonmajor governmental fund).

#### Construction and Maintenance of Adult and Juvenile Jail Facilities

On November 3, 1998, at the general election, the voters approved a 1/5 of one-cent sales tax to begin January 1, 1999, for the construction and maintenance of adult and juvenile jail facilities. The tax shall continue in effect until \$900 million of revenue is collected, but in no event more than nine years.

On November 5, 2002, at the general election, the voters approved an extension of the existing jail sales tax of 1/5 of one-cent for jail facilities and programs. The extended tax shall be levied beginning the month following the expiration of the previous tax as approved by the voters in 1998.

At June 30, 2004, Maricopa County had contractual commitments of \$9,212,275. These projects are accounted for in the Jail Construction Fund.

#### Construction of various County facilities

At June 30, 2004, Maricopa County had contractual commitments of \$45,229 related to major capital projects financed by the Lease Revenue Bonds, Series 2001. These projects are accounted for in the County Improvement Fund (nonmajor governmental fund). The County had additional contractual commitments of \$2,815,963 relating to major capital projects accounted for in the Intergovernmental Capital Projects Fund (nonmajor governmental fund), and funded predominantly through transfers from the General Fund.

On May 1, 2004, the Medical Center Fund remitted \$3,184,532 of unspent proceeds from the \$124,855,000 Lease Revenue Bonds, Series 2001, to the County Improvement Fund (nonmajor governmental fund). As a result, the debt service requirements were decreased by \$3,184,532 for business-type activities and increased by \$3,184,532 for the governmental activities.

In fiscal year 2004, a transfer of \$1,141,640 in liabilities was made from governmental activities to report claims and judgments payable previously reported in governmental activities to the Solid Waste Fund (nonmajor enterprise fund) liability for closure and postclosure costs. The transfer was related to the cleanup costs associated with a landfill designated as a superfund site.

The July 1, 2003, liabilities for governmental activities was restated as the Housing Authority wrote off all amounts applicable to the Authority bonds and loans of \$50,811 and \$1,641,310, respectively, in accordance with the Department of Housing and Urban Development (HUD) GAAP Flyer No. 4, which states that HUD and not the Housing Authority is directly obligated for the debt. See Note 2 – Reporting Changes and Note 3 – Beginning Balances Restated for additional information.

Bonds, loans, and other payables were as follows at June 30, 2004:

### General Obligation Bonds

General obligation bonds are direct obligations of the government. Prior to issuance, general obligation bonds have a majority vote approval from the residents. Principal and interest are payable from secondary property taxes levied on all taxable property within the County without limitation as to rate or amount. The bonds are generally callable and the interest is payable semiannually.

DESCRIPTION	AMOUNT OF ISSUE	INTEREST RATES	MATURITY DATES	OUTSTANDING AT JUNE 30, 2004
2001 Refunding Bonds	\$ 20,165,000	4%	7-1-04	\$ 20,165,000

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending June 30	Governmental Activities	
	General Obligation Bonds	
	Principal	Interest
2005	\$ 20,165,000	\$ 403,300

Legal Debt Margin - County indebtedness pertaining to general obligation bonds may not exceed six percent of the value of the County's taxable property ascertained by the last assessment. However, with voter approval, the County may become indebted for an amount not to exceed 15 percent of such taxable property. At June 30, 2004, the County's net general obligation debt was \$20,165,000, (0.07% of taxable property), while the 6 percent limit was \$1,648,679,252 and the 15 percent limit was \$4,121,698,129.

### Lease Revenue Bonds

On June 1, 2001, the Maricopa County Public Finance Corporation issued \$124,855,000 of Lease Revenue Bonds to pay for the acquisition, construction, and equipment for the Public Service Building, Forensic Science Center, Superior Court Customer Service Center, parking garages, and related projects. Under the terms of the bond indentures, the Corporation received the proceeds to construct and purchase these assets and the County will make lease payments to extinguish the debt. Lease payments will equal the aggregate amount of principal and interest due at that date. Upon the final lease payment, the title to the assets will transfer to the County. The County's obligation to make lease payments will be subject to and dependent upon annual appropriations being made by the County. Bonds maturing after July 1, 2012, are subject to optional redemption in increments of \$5,000 on July 1, 2011, or any date thereafter, at par plus accrued interest to the date fixed for redemption. In the event of nonappropriation, the bonds would be subject to special redemption at par plus accrued interest to the redemption date.

On December 3, 2003, the Maricopa County Public Finance Corporation issued \$16,880,000 of Lease Revenue Refunding Bonds for the current refunding of various certificates of participation, series 2000, 1996, 1994, and 1993 totaling \$10,074,452, and capital leases and an installment purchase contract totaling \$11,104,817. The County contributed \$4,461,354 to facilitate the refunding. Under the terms of the bond indentures, the Corporation received the proceeds to call or payoff County debt obligations. By June 1, 2004, all proceeds from the Lease Revenue Refunding Bonds were used to call and defease the described debt and no proceeds remain with the trustee. The County will make lease payments to extinguish the refunding debt. The County will be obligated to pay on each lease payment date an amount equal to the lease payments then due. The County's obligation to pay the lease payments will continue until all lease payments due under the lease have been paid. The County's obligation to make lease payments will be subject to and dependent upon annual appropriations being made by the County. The bonds are not subject to optional redemption prior to maturity; however, in the event of nonappropriation, the bonds would terminate and be subject to special mandatory redemption at par plus accrued interest, without premium.

Refunded and Refinanced Obligations – During fiscal year 2004, the Maricopa County Public Finance Corporation issued Lease Revenue Refunding Bonds, Series 2003, for \$16,880,000 (par value) with interest rates ranging from 2.5% to 4% and maturing from July 1, 2004, to July 1, 2012. The bonds were issued at a premium of \$457,156 and a debt service reserve account previously established totaling \$4,461,354 was also used for the current refunding. After paying issuance expense costs of \$263,284, the net proceeds including the reserve account were \$21,535,226. The proceeds were used to call or payoff the following debt issues by June 1, 2004: 2000 certificates of participation principal of \$4,103,000, interest rates ranging from 5.80% to 6.0% and maturing on July 1, 2010; 1996 certificates of participation principal of \$1,576,452, interest rates ranging from 5.90% to 6.25% and maturing on June 1, 2011; 1994 certificates of participation principal of \$3,815,000, interest rate of 6.0% and maturing on June 1, 2004; 1993 certificates of participation principal of \$580,000, interest rates ranging from 5.0% to 5.25% and maturing on June 1, 2008; and several capital leases and an installment purchase contract totaling \$11,104,817 with interest rates ranging from 4.525% to 5.84%.

As a result of the refunding, the certificates of participation and the capital leases are considered defeased and the related liabilities are not included on the financial statements. In addition, the County reduced its total debt service requirements by \$2,692,948, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$1,234,420.

### Stadium District Revenue Bonds

Stadium District Revenue Bonds are special obligations of the District. The bonds are payable solely from pledged revenues, consisting of car rental surcharges levied and collected by the Stadium District pursuant to A.R.S. §48-4234. Under the statute, the Stadium District may set the surcharge at \$2.50 on each lease or rental of a motor vehicle licensed for hire, for less than one year, and designed to carry fewer than 15 passengers, regardless of whether such vehicle is licensed in the State of Arizona. The Stadium District Board of Directors initially levied a surcharge at a rate of \$1.50 beginning in January 1992 and increased the surcharge to \$2.50, the maximum amount permitted by statute, in January 1993. The bonds do not constitute a debt or a pledge of the faith or credit of Maricopa County, the State of Arizona, or any other political subdivision. The payment of the bonds is enforceable solely out of the pledged revenues and no owner shall have any right to compel any exercise of taxing power of the District, except for surcharges. The bonds maturing prior to June 1, 2012, are not subject to redemption prior to maturity.

## Notes to the Financial Statements (Continued)

The bonds maturing after June 1, 2013, are subject to optional redemption in increments of \$5,000 at par plus accrued interest.

The Stadium District had the following revenue bonds outstanding at June 30, 2004:

DESCRIPTION	AMOUNT OF ISSUE	INTEREST RATES	MATURITY DATES	OUTSTANDING AT JUNE 30, 2004
Revenue Refunding Bonds, Series 2002	<u>\$ 58,225,000</u>	5 — 5.375%	6-1-05/19	<u>\$ 55,225,000</u>

Total	<u>\$ 55,225,000</u>	<u>\$ 26,018,625</u>

In prior years, the Stadium District defeased senior bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the County's financial statements. At June 30, 2004, \$8,335,000 of bonds outstanding are considered defeased as summarized below.

Refunded in Prior Years		
Issue	Outstanding Principal	Call Date
Series 1996 Senior Bonds	<u>\$ 8,335,000</u>	July 1, 2006

### Stadium District Contractual Obligations

On February 17, 1994, the Stadium District entered into an agreement with the Arizona Diamondbacks (Team) to provide for the financing of a portion of the costs of acquisition and construction of a new major league baseball stadium. In connection with the agreement, the Stadium District committed to provide up to \$253,000,000 for the cost of the new stadium. The \$253,000,000 was funded through the use of \$238,000,000 of the special sales tax levy. Under the Facility Development Agreement for the major league baseball stadium, the Stadium District was obligated to obtain a loan in the amount not to exceed \$15 million to pay for part of the Stadium District's portion of construction costs. The Team agreed to include the Stadium District loan in its financing in order to allow the Stadium District to obtain more favorable financing terms, and the Stadium District agreed to repay the Team for this increase in the Team's borrowing. At June 30, 2004, the Stadium District had contractual commitments outstanding of \$6,428,888 with a fixed interest rate of 7.15%.

### Special Assessment Debt With Governmental Commitment

Special assessment bonds are payable from assessments collected from property owners benefited by the respective improvements. The proceeds were used to finance construction in these districts. While there is no legal obligation for the County to further secure the special assessment bonds of the districts below, the County has made a moral commitment to take steps necessary to prevent default.

Special assessment bonds currently outstanding for governmental activities are as follows:

### Certificates of Participation

Certificates of participation represent proportionate interests in semiannual lease payments. The certificates are generally callable after July 1, 2010, with interest paid semiannually. The County's obligation to make lease payments is subject to annual appropriations being made by the County for that purpose.

On November 1, 2000, Maricopa County Public Finance Corporation issued \$6,975,000 of certificates of participation to pay for the acquisition of and improvements to the Desert Vista Hospital and medical office facilities.

The following certificates of participation were outstanding at June 30, 2004:

DESCRIPTION	AMOUNT OF ISSUE	INTEREST RATES	MATURITY DATES	OUTSTANDING AT JUNE 30, 2004
2000 Certificates of Participation	\$ 6,975,000	4.70 - 5.50%	7-1-04/15	\$ 5,865,000

Annual debt service requirements to maturity for certificates of participation are as follows:

Year Ending June 30	Business-Type Activities	
	Principal	Interest
2005	\$ 365,000	\$ 289,508
2006	385,000	271,786

2015 – 16	1,255,000	69,682
TOTAL	\$ 5,865,000	\$ 2,022,408

### Capital Leases

The County has entered into various lease-purchase agreements, which are noncancellable, for the acquisitions of the following equipment:

	Governmental Activities
Audio/Visual Systems	\$ 56,502
Computer Systems and Equipment	4,181,393
Communications Equipment	519,240
Library Bookmobile	207,720
Medical Equipment	186,793
Printing Equipment	125,290
Total Capital Assets	5,276,938
Accumulated Depreciation	(1,674,456)
Net Value of Leased Capital Assets	\$ 3,602,482

These lease-purchase agreements require the County to pay all maintenance costs. At the time of the final principal and interest payments, title to the leased equipment transfers to the County. These leases are contingent on budgetary appropriations each fiscal year. The assets are capitalized at total principal cost.

## Notes to the Financial Statements

The following schedule details debt service requirements to maturity for the County's capital leases payable at June 30, 2004.

Year Ending June 30	Governmental Activities
2005	\$ 5,398,977
2006	3,503,240

The present value of net minimum lease payments at June 30, 2004, of \$10,820,105 exceeds the total capital assets of \$5,276,938 because a significant portion of the assets acquired through capital leases are computer related equipment that is below the County's capitalization threshold.

### Installment Purchase Contracts Payable

The County has entered into installment purchase contracts payable for the acquisition of medical equipment used in the Medical Center Fund (business-type activities), at a total purchase price of \$2,382,705.

### Conduit Debt Obligations

Maricopa County issues revenue bonds on behalf of private sector entities to provide financial assistance for projects deemed to be of public interest. Neither the principal, accrued interest or premium, if any, shall ever constitute an indebtedness of the County or State of Arizona or any political subdivision, nor shall it be a liability or a charge against the general credit or taxing powers. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of June 30, 2004, there were three revenue bond issues outstanding, with an aggregate principal amount payable of \$114,880,000.

### Arbitrage Compliance

The County is in compliance with all Federal arbitrage regulations for tax-exempt debt securities. As of June 30, 2004, the County had no arbitrage liability.

### NOTE 13 – MUNICIPAL LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

The County has five landfills and three transfer stations. State and federal laws and regulations require the County to place a final cover on four of its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for 30 years after closure. Although one landfill and the transfer stations are exempt from these regulations, the County is performing postclosure monitoring of the sites and has included these estimated costs in the liability.

Although closure and postclosure care costs will not be paid until near or after the date that the landfills stop accepting waste, the County reports a portion of these closure and postclosure care costs in each operating period even though actual payouts will not occur until the landfills are closed. These costs will be paid from the Solid Waste Fund (nonmajor enterprise fund).

The amount recognized each year is based on landfill capacity used at the end of each fiscal year. The landfill closure and postclosure care liability at June 30, 2004, includes the cumulative amount of \$8,919,554 reported to date based on the use of 99.7 percent of the estimated capacity of the landfills. The County will recognize the remaining estimated cost of the closure and postclosure care of \$177,207 as the remaining estimated capacity is filled. Additionally, in August 1992, there was a Rule of Decision issued in federal court governing suspected groundwater contamination at the Hassayampa Landfill and the County has been determined to be 28% responsible for the cost of remedial investigation and the feasibility study which is being conducted with regulatory oversight by the U.S. Environmental Protection Agency. In fiscal year 2003, the County included the long-term portion of these costs in the amount of \$1,141,640 for the ground water contamination as an accrued liability in governmental activities claims and judgments payable. In fiscal year 2004, the County determined it would be more appropriate to report the total liability for the costs of the remedial investigation for the Hassayampa Landfill of \$1,693,940 in the

## Notes to the Financial Statements

(Continued)

closure and postclosure costs of the Solid Waste Fund. Therefore, during fiscal year 2004, a transfer was made from the Solid Waste Fund to reimburse governmental activities in the amount of the prior year accrued liability. The total landfill closure and postclosure care liability of \$10,613,494 is comprised of both the \$8,919,554 for the capacity of landfills used as of June 30, 2004, and the \$1,693,940 remedial investigation costs for the Hassayampa Landfill. These amounts are based on what it would cost to perform all closure and postclosure care and remedial investigation costs in fiscal year 2004; the actual costs may be higher due to inflation, changes in technology, changes in regulations, or results of the investigational study. The County currently has only one landfill that is still accepting waste and expects to close this landfill in fiscal year 2006.

According to state and federal laws and regulations, the County must comply with the local government financial test requirements that assure the County can meet the costs of landfill closure, postclosure, and corrective action when needed. The County is in compliance with these requirements.

### NOTE 14 – MUNICIPAL REVOLVING LINE OF CREDIT AND IRREVOCABLE STANDBY LETTER OF CREDIT

On July 1, 2001, the County entered into a \$35,000,000 municipal revolving line of credit with an interest rate of 65% of the bank's prime rate and a maturity date of June 30, 2004. The municipal revolving line of credit was renewed to July 1, 2005, for \$35,000,000. Outstanding principal and interest is due on June 30 of each year. During fiscal year 2004, the County had not borrowed against the line of credit.

On July 1, 2003, the County entered into a \$9,058,610 irrevocable standby letter of credit issued to the Industrial Commission of Arizona for unfunded workers' compensation claims. The irrevocable standby letter of credit matured on July 1, 2004. The letter of credit was reserved against the municipal revolving line of credit. During fiscal year 2004, the letter of credit had not been drawn upon. The irrevocable standby letter of credit was renewed to July 1, 2005, for \$8,503,093.

### NOTE 15 – OPERATING LEASES

Operating Leases – The County's operating leases are for office equipment, land, and buildings. Rental expenses under the terms of these operating leases for governmental activities were \$17,584,756 for the year ended June 30, 2004. These operating leases have remaining lease terms from one to eight years. Also, they provide renewal options and are contingent on budgetary appropriations each fiscal year. The future minimum rental payments required under these operating leases as of June 30, 2004, are as follows:

Year Ended June 30	Governmental Activities
2005	\$ 10,242,746
2006	8,268,453
2007	6,877,361

## NOTE 16 – RISK MANAGEMENT

### Self-Insurance

The Risk Management Fund (internal service fund) accounts for the financing of the insured risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters.

The County carries commercial insurance for general and automobile liability in excess of \$5,000,000 per occurrence (limit \$30 million), medical malpractice liability in excess of \$5,000,000 per occurrence (limit \$25 million), and workers' compensation benefits in excess of \$1,000,000 per occurrence (limit \$25 million). Settled claims have not exceeded this commercial coverage since the inception of these insurance policies.

Liabilities for unpaid claims are estimates determined by an independent actuary using the following actuarial methods: reported loss development, paid loss development, Bornhuetter-Ferguson reported loss and paid loss, frequency times severity, case outstanding loss development, expected loss, incremental paid workers' compensation, paid allocated loss adjustment expense (ALAE) to paid loss development, and tail liability for medical malpractice. Accrued actuarial liabilities are based on a discounted 55 percent confidence level assuming a 3.0 percent annual rate of return on future investment income. Accrued actuarial liabilities at June 30, 2004, for each insurable area follow:

General liability	\$ 21,514,758
Automobile liability	451,958
Malpractice	10,654,951
Workers' compensation	9,413,495
Property reserve	365,508
Auto physical damage reserve	131,943
Total	\$ 42,532,613

Changes in the unpaid claims liability reported in the Risk Management Fund follow:

Year	Balance July 1	Current-Year Claims And Changes In Estimates	Claim Payments	Balance June 30
2001-02	\$ 40,569,044	\$ 8,410,852	\$ (7,302,517)	\$ 41,677,379

2003-04	41,047,771	8,992,628	(7,507,786)	42,532,613

The Employee Benefits Trust Fund (internal service fund) accounts for the financing of the insured risk of loss for certain health benefits (pharmacy, medical, dental, short-term disability, hospital co-pay reimbursements, and medical incentives) to eligible employees and their dependents.

The liability for pharmacy, medical, dental, and short-term disability claims is based on fiscal year 2004 actuarial reports. The hospital co-pay reimbursements program was discontinued effective December 31, 2003. The liability for hospital co-pay reimbursements is based on historical reimbursements. The liability for medical incentives is based on the contract with CIGNA Healthcare (CIGNA). Effective January 1, 2004, the Health Select medical and pharmacy program was transferred from the Maricopa Integrated Health System to the Employee Benefits Trust Fund. Accrued actuarial liabilities at June 30, 2004, for each insurable area follow:

### Other Claims

The County has exposure to the following claims areas carrying no commercial insurance:

**Indigent Health Care Litigation** - At June 30, 2004, there were 52,785 claims pending against the County representing full-billed charges of approximately \$252 million for indigent health care. This amount is subject to a statutory discount that averages more than 50%. It is not practical to determine the anticipated outcome of the litigation and to estimate the potential losses due to the fact that the Court has not yet provided a ruling to clarify the current statutory provisions that would provide the parties with the ability to adjudicate the claims. In addition, less than ten per cent of the claims have actually been reviewed for legitimacy due to the large number of claims filed and the refusal of the hospital plaintiffs to provide requested support for verification of submitted claims. During the fiscal year 2004, \$64 million in claims with individual hospitals were settled for less than \$3 million; however, the method of determining the settlement amount can vary between hospitals as each hospital has a different set of requirements for calculating and agreeing on a settlement. The Superior Court of Maricopa County has appointed a Special Master to facilitate the dispute process. In the opinion of outside legal counsel, no accrual for potential liability can be reasonably determined. A prior judgment of \$1.1 million was awarded to hospital plaintiffs in November 2002. The amount of this judgment, which was in the appeal process, is being accrued at June 30, 2004, in claims and judgments payable in the government-wide financial statements for governmental activities. Prejudgment interest is not included, as the amount cannot be estimated at this time.

**Environmental Liability** - The County has estimated and reported an environmental liability of \$18,890,000 in the government-wide financial statements for governmental activities (in claims and judgments payable). Management reports litigation, claims, and estimated remedial costs for asserted claims including environmental liabilities, discovered from the ongoing assessment of County land and facilities, which may include aquifer protection, storm water discharge, asbestos, lead paint, indoor air quality, monitoring of underground storage tanks, and the cleanup and monitoring of landfills. Current environmental liabilities pertain to the cleanup and monitoring of leaking underground storage tanks, asbestos, lead paint, and landfill costs not accounted for in the Solid Waste Fund (nonmajor enterprise fund). There is a potential incremental liability of \$32,110,000, which is contingent upon the extent to which additional environmental contamination is found pertaining to asbestos, microbial abatement, and landfill costs. Additional liabilities pertaining to landfill cleanup are reported in the Solid Waste Fund (nonmajor enterprise fund) as closure and postclosure costs.

## Notes to the Financial Statements

(Continued)

---

The County also has outstanding claims of approximately \$4 million at June 30, 2004, pertaining to disputes regarding property taxes levied. No accrual has been made as a majority of the claims have been in litigation for several years and the amounts are not material to the County. In the event the County is not successful in defending these claims, the County will account for the payment of the claims as a reduction in the current year tax levy. The allocation of the property tax levy will be based on the levy year in which the claim has arisen.

### Health Care Programs

The County operates four health care programs that are accounted for in the Maricopa Health Plan Fund, ALTCS Fund and the Non-AHCCCS Health Plans Fund to provide health care services to the programs' enrollees. The liability for medical claims payable of \$91,424,508 presented in the Statement of Net Assets for the Proprietary Funds represents the outstanding medical claims for health care services received by the programs' enrollees. The incurred but not reported portion of this liability was actuarially calculated.

## NOTE 17 – EMPLOYEE RETIREMENT PLANS

### Plan Descriptions

The County contributes to the four retirement plans described below. Benefits are established by state statute and generally provide retirement, death, long-term disability, survivor, and health insurance premium benefits.

**The Arizona State Retirement System (ASRS)** administers a cost-sharing multiple-employer defined benefit pension plan that covers general employees of the County. The ASRS is governed by the Arizona State Retirement System Board according to the provisions of Arizona Revised Statutes Title 38, Chapter 5, Article 2.

**The Public Safety Personnel Retirement System (PSPRS)** (Sheriff, Investigators, and Park Rangers) is an agent multiple-employer defined benefit pension plan that covers public safety personnel who are regularly assigned hazardous duty as employees of the State of Arizona or one of its political subdivisions. The PSPRS, acting as a common investment and administrative agent, is governed by a five member board, known as The Fund Manager, and the participating local boards according to the provisions of Arizona Revised Statutes Title 38, Chapter 5, Article 4.

**The Corrections Officer Retirement Plan (CORP)** is an agent multiple-employer defined benefit pension plan that covers certain employees of the State of Arizona, Departments of Corrections and Juvenile Corrections, and county employees whose primary duties require direct inmate contact. The CORP is governed by The Fund Manager of PSPRS and the participating local boards according to the provisions of Arizona Revised Statutes Title 38, Chapter 5, Article 6.

**The Elected Officials Retirement Plan (EORP)** is a cost-sharing multiple-employer defined benefit pension plan that covers elected officials and judges of certain state and local governments. The EORP is governed by The Fund Manager of PSPRS according to the provisions of Arizona Revised Statutes Title 38, Chapter 5, Article 3.

### Funding Policy

The Arizona State Legislature establishes and may amend active plan members' and the County's contribution rates.

Cost-Sharing Plans - For the year ended June 30, 2004, active ASRS members and the County were each required by statute to contribute at the actuarially determined rate of 5.7 percent (5.2 percent retirement and 0.5 percent long-term disability) of the members' annual covered payroll. The County's contributions to ASRS for the years ended June 30, 2004, 2003, and 2002 were \$29,855,413, \$12,352,160, and \$11,046,104, respectively, which were equal to the required contributions for the year.

In addition, active EORP members were required by statute to contribute 7 percent of the members' annual covered payroll. The County was required to remit a designated portion of court docket fees plus additional contributions of 6 percent of the member's annual covered payroll, as determined by actuarial valuation. The County's contributions to EORP for the years ended June 30, 2004, 2003, and 2002 were \$3,269,129, \$2,414,989, and \$2,350,549, respectively, which were equal to the required contributions for the year.

Agent Plans - For the year ended June 30, 2004, active PSPRS (Maricopa County Sheriff) members were required by statute to contribute 7.65 percent of the members' annual covered payroll, and the County was required to contribute at the actuarially determined rate of 7.87 percent. Active PSPRS (Maricopa County Attorney Investigators) members were required by statute to contribute 7.65 percent of the members' annual covered payroll, and the County was required to contribute at the actuarially determined rate of 8.20 percent. Active PSPRS (Maricopa County Park Rangers) members were required by statute to contribute 7.65 percent of the members' annual covered payroll, and the County was required to contribute at the actuarially determined rate of 12.35 percent. Active CORP members were required by statute to contribute 8.50 percent of the members' annual covered payroll, and the County was required to contribute at the actuarially determined rate of 2.96 percent.

Annual Pension Cost - The County's pension cost for the two agent plans for the year ended June 30, 2004, and related information follows.

	PSPRS			CORP
	(Sheriff)	(Investigators)	(Park Rangers)	
Contribution rates:				
County	7.87%	8.20%	12.35%	2.96%
Plan members	7.65%	7.65%	7.65%	8.50%
Annual pension cost	\$ 2,360,677	\$ 57,649	\$ 27,507	\$ 1,220,978
Contributions made	\$ 2,360,677	\$ 57,649	\$ 27,507	\$ 1,220,978

The current-year annual required contributions for the PSPRS (Sheriff, Investigators, and Park Rangers) and CORP were determined as part of their June 30, 2002, actuarial valuations using the entry-age actuarial cost method. The actuarial assumptions included (a) 9 percent investment rate of return and (b) projected salary increases ranging from 6.5 percent to 9.5 percent per year. Both (a) and (b) included an

## Notes to the Financial Statements (Continued)

inflation component of 5.5 percent. The assumptions did not include cost-of-living adjustments. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a 4-year period. The unfunded (excess) actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2002, was 20 years.

## (Continued)

The balance due to the General Fund of \$21,864,994 from the Medical Center Fund and \$3,696,825 from the Non-AHCCCS Health Plans Fund resulted from a cash deficit. In the following fiscal year, the County budgets cash transfers to the Medical Center Fund and the Non-AHCCCS Health Plans Fund for operating expenses. The County General Fund will transfer monies during the subsequent fiscal year to subsidize operations of the Maricopa Health Plan Fund, ALTCS Fund and the Non-AHCCCS Health Plans Fund in the amounts of \$2,144,421, \$1,789,813 and \$11,000,000, respectively. The remaining cash deficits were the result of timing differences from sales tax revenues and grant revenues received in the subsequent year and cash transfers that had not occurred at June 30, 2004.

Interfund transfers – interfund transfers for the year ended June 30, 2004, were as follows:

Transfers Out	Transfers In										
	General Fund	Jail Operations Fund	General Obligation Fund	Lease Revenue Fund	Medical Center Fund	Maricopa Health Plan Fund	ALTCS Fund	Non-AHCCCS Health Plans Fund	Nonmajor Governmental Funds	Internal Service Funds	Total Transfers Out

Transfers of capital assets and long-term debt:

Enterprise Fund transfer to general capital assets	350,545
Enterprise Fund transfer to governmental activities	1,141,640
Internal Service Funds transfers to general capital assets	81,705
Total transfers out	<u>\$ 360,054,726</u>

In the fund financial statements, total transfers in of \$358,480,836 are less than total transfers out of \$360,054,726 because of transfers of capital assets from and long-term debt to the proprietary funds. During the year, existing capital assets with a book value of \$432,250 were transferred from the proprietary funds to County-wide capital assets. The proprietary funds reported transfers out for the net carrying value of the assets; however, there were no offsetting transfers in reported in the fund financial statements as these assets were transferred to County-wide capital assets. In addition, a transfer of \$1,141,640 was made from the Solid Waste fund to reimburse governmental activities for claims and judgments payable previously reported in governmental activities.

All interfund transfers are budgeted and are used to move revenues from the fund that collects them to the fund that expends them. In addition, the General Fund transferred an operating subsidy to the Medical Center and the County health care programs.

The interfund receivables, payables, and transfers by fund are as follows:

### NOTE 19 – DISPROPORTIONATE SHARE SETTLEMENT

Section 1923 of the Social Security Act establishes federal requirements designed to aid entities that provide medical services to a disproportionate share of medically indigent patients. These requirements were met for the year ended June 30, 2004, through disproportionate share settlements established by Laws 2003, First Regular Session, Chapter 262 and Laws 2004, Second Special Session, Chapter 277. AHCCCS was directed to distribute such settlements based on various qualifying criteria and allocation processes. Laws 2003 and Laws 2004 appropriated disproportionate share settlement amounts to be distributed to the hospitals for the year ended June 30, 2004. The Medical Center's share of the settlement for the year ended June 30, 2004, totaled \$103,317,300. However, Laws 2003, First Regular Session, Chapter 265 and Laws 2004, Second Regular Session, Chapter 277 also mandated the reimbursement of \$99,115,000 through the State Treasurer to the State General Fund.

### NOTE 21 – SUBSEQUENT EVENTS

In the November 2003 election, the voters approved the creation of a Special Health Care District to operate the Maricopa County Health Care System. The Maricopa County Board of Supervisors were over the operations of the Medical Center and its facilities until it transitioned to the Maricopa County Special Health Care District on January 1, 2005. On November 2, 2004, the voters elected the Special Health Care District Board of Directors and on November 17, 2004, they were sworn into office. On November 1, 2004, the Maricopa County Board of Supervisors approved an intergovernmental agreement specifying the transfer terms of all assets and liabilities to the District. By January 1, 2005, all assets were transferred to the District. The District will not be included in the County's reporting entity subsequent to the January 1, 2005, transition to the Maricopa County Special Health Care District.

On August 28, 2004, the Maricopa County Public Finance Corporation entered into a Lease Purchase Agreement with a financial institution not to exceed \$15,000,000 with a fixed interest rate of 4.165% and maturing on June 1, 2012. The Lease Purchase Agreement will be on a draw down basis and will be amortized after each drawdown. The purpose of the Lease Purchase Agreement is to provide financing for the construction and capital equipment for the Human Services Project. The County is obligated to make the principal and interest payments on the amounts borrowed under this agreement.

## Notes to the Financial Statements

---

On November 1, 2004, Maricopa County provided a \$15 million working capital line of credit to the Maricopa County Special Health Care District. On June 8, 2005, the line of credit was extended by Maricopa County to ten years with the first five years as interest free. Maricopa County will charge the Maricopa County Special Health Care District interest for the second five years based on the interest rate earned by the County Treasurer's investment pool.

On December 31, 2004, Maricopa County discontinued the Senior Select health care program as reported in the Non-AHCCCS Health Plans Fund. The County remains obligated for any claims prior to the date of the discontinued operations.

On May 25, 2005, the Maricopa County Board of Supervisors approved the process to transfer or close the Maricopa County health care programs (AHCCCS—Acute Health Care and ALTCS programs) and its membership by September 30, 2005. On August 29, 2005, the Maricopa County Board of Supervisors approved the transfer and assignment of the AHCCCS—Acute Health Care program to the Maricopa County Special Health Care District (District) effective October 1, 2005. All liabilities prior to the transfer to the District will remain with Maricopa County. The ALTCS program was discontinued by Maricopa County effective September 30, 2005, and all liabilities associated with the operation will remain with Maricopa County.

On August 29, 2005, the Maricopa County Public Finance Corporation defeased the Medical Center's portion of the Series 2001 Lease Revenue Bonds in the amount of \$10,605,000. The County contributed the cash to advance refund the bonds, which mature on July 1, 2006 through July 1, 2015; these bonds are callable on July 1, 2011, and are redeemable at par plus accrued interest.

**Note 1 Budgetary Basis of Accounting**

Budgeting and Budgetary Control

Arizona Revised Statutes (A.R.S.) require the County to prepare and adopt a balanced budget annually for each governmental fund. The Board of Supervisors must approve such operating budgets on or before the third Monday in July to allow sufficient time for the legal announcements and hearings required for the adoption of the property tax levy on the third Monday in August. A.R.S. prohibit expenditures or liabilities in excess of the amounts budgeted.

Essentially, the County prepares its budget on the same modified accrual basis of accounting used to record actual revenues and expenditures.

The County has adopted budgets in accordance with the A.R.S. requirements for the General, Special Revenue, Debt Service, and Capital Projects Funds, except for certain Special Revenue, Debt Service, and Capital Projects Funds. In accordance with GASB Statement No. 34, budgetary comparison schedules should be presented in the required supplementary information for only the General Fund and for each major Special Revenue Fund. Formal budget integration is not employed for the Proprietary Funds because effective budgetary control is alternatively achieved through capability of cost recovery. Budgeted amounts are reported as originally adopted and as amended by authorization from the Board of Supervisors. All budget adjustments with the exception of the Judicial Branch, which includes Adult Probation, Justice Courts, Juvenile Probation and Superior Court, require authorization from the Board of Supervisors. The Judicial Branch appropriations can be moved between the Judicial Branch departments by fund, as requested and approved by the Presiding Judge, without further Board approval. Budgeted appropriations include expenditures and transfers out. Expenditures and transfers out may not legally exceed appropriations at the department level. With the exception of the General Fund, each fund includes only one department.

The County budget is prepared on a basis consistent with generally accepted accounting principles, except expenditures from capital lease proceeds and capital outlay expenditures resulting from capital lease agreements were not budgeted in the General Fund. In addition, General Fund indirect costs recovery and disproportionate share settlement payments were budgeted activities but these activities were eliminated on the Statement of Revenues, Expenditures, and Changes in Fund Balances.

The following schedule reconciles the excess of revenues over expenditures from the Statement of Revenues, Expenditures, and Changes in Fund Balances to the budgetary comparison schedules.

	<u>General Fund</u>
Excess of revenues over expenditures from the Statement of Revenues, Expenditures, and Changes in Fund Balances	\$ 218,686,517
Disproportionate share payment - expenditures	(99,115,000)
Indirect cost adjustment – expenditures	(9,273,039)
Capital lease expenditures	<u>6,491,949</u>
Excess of revenues over expenditures from the budgetary comparison schedules	<u>\$ 116,790,427</u>

**Note 2 Expenditures in Excess of Appropriations**

For the year ended June 30, 2004, expenditures exceeded final budget amounts at the department level (the legal level of budgetary control) as follows:

Fund/Department	<u>Excess</u>
General Fund:	
Medical Examiner	\$ 29,561
Expenditures in excess of appropriations	<u>\$ 29,561</u>

In the future years, the County will closely monitor department spending, especially at year-end, to ensure that expenditures do not exceed the final approved budget.

Actual	\$ 4,082,026	\$ 8,001,001	\$ 8,325,362	

The condition of road pavement is measured using the MCDOT Road Management System (RMS), which is based on weighted averages of nine distress factors of the pavement surface. The RMS system uses a measurement scale to evaluate the Pavement Condition Rating (PCR) ranging from zero for a failed pavement to 100 for a pavement in perfect condition. The PCR index is used to classify roads in very good or excellent condition (71-100), good condition (55 -70), and substandard condition (less than 55). It is the County's policy to maintain at least 90% of the roadways at a very good or excellent condition level. No more than 5% should be in a substandard condition. Pavement condition assessments are determined annually for all arterial roads and approximately one-half of the local roads are inspected annually. In fiscal year 2004, the County acquired a new road pavement-measuring device used to determine the pavement condition rating. As a result, the County's percentage of lane miles in very good or excellent condition decreased from 95% in fiscal year 2003 to 90% in fiscal year 2004. In fiscal year 2005, the County will adopt a policy of maintaining at least 85% of the roadways at a very good or excellent condition level.

The condition of the County's bridges is determined using the MCDOT bridge inspection program that follows federal mandates and regulations. The bridge sufficiency rating, which is a weighted average of an assessment of the ability of individual components to meet necessary performance requirements, uses a numerical condition scale ranging from 0 to 100. It is the County's policy that 90% of bridges will have a rating of >=70 and no more than 3% of bridges will have a rating of <50. All bridges are inspected every two years (approximately one-half of the bridges are inspected annually).

The Comparison of Estimated to Actual Maintenance/Preservation cost for both the Roadway System and the Bridge System is available for only fiscal years 2004, 2003 and 2002, therefore the five reporting periods of historical data are not shown.

### Special Revenue Funds

**Accomodation Schools** — Accounts for the maintenance and operations of the accommodation schools.

**Adult Probation Grants** — Revenues consist of grant funds that are used for domestic violence, women's treatment programs, gang prevention and criminal justice records improvement.

**Adult Probation Services** — Collects the fees assessed to persons placed on probation in the Superior Court per A.R.S. §13-901. Monies collected are used to supplement County General Fund appropriations for the compensation costs of probation officers who provide pre-sentence investigations (A.R.S. §12-267).

**Animal Care and Control** — Animal Control reduces the incidences of animal inflicted injuries and reduces the risk of exposure to rabies through enforcement of dog licensing laws, leash laws, capture and impoundment of stray dogs, public education, adoption or humane disposal of excess animals. Licenses and fees are the primary funding source.

**Animal Care and Control Donations** — Accounts for donations and contributions activities by citizens or groups.

**Animal Care and Control Field Services** — Accounts for Animal Control Field Services which are an optional County Service from Animal Control Pound Activities which are required by Arizona State Statute.

**Animal Care and Control Grants and Donations** — Accounts for the grant funds that are utilized by Animal Control.

**Bank One Ballpark Operations** — Accounts for all revenues and expenditures related to Bank One Ballpark.

**CDBG Housing Trust** — Accounts for the grant funds that are utilized to expand the supply of low income housing through the rehabilitation and reconstruction of single family occupancy homes.

**Child Support Automation** — Accounts for funds that are utilized to improve, maintain and enhance computer hardware, software and automation systems for the collection of court ordered child support. Operations are funded from revenues which consist of 50% of the monies received by the Clerk's office for child support handling fees, pursuant to A.R.S. §25-413 and A.R.S. §12-284.

**Child Support Enhancement** — Accounts for funds received from a federal incentive award that is utilized for the enhancement of child support collections through efficient operation of the IV-D program.

**Children's Issues Education** — Accounts for the funds that are utilized for educational programs regarding the impact that divorce, the restructuring of families and judicial involvement have on children pursuant to A.R.S. §25-354. Revenues that are received from the Clerk's educational program fees supplement any state or county appropriations.

**Clerk of Court EDMS** — The Clerk of Court EDMS Fund was established to account for Electronic Document Management System (EDMS) Fees which are collected as authorized by Board Agenda C16020028, ADM1005 and State Attorney General's Opinion 195-18 (R94-63).

**Clerk of Court Fill the Gap** — This fund was set up as indicated by A.R.S. §41-2421F and accounts for monies distributed under A.R.S. §41-2421. Funds are to be used to supplement, not supplant, funding at the level provided in fiscal year 1998 by the counties for the processing of criminal cases in the superior court, including the office of the clerk of the superior court, and justice courts.

**Clerk of Court Grants** — Accounts for the grant funds that are utilized for the improvement of court automation systems, child support enforcement and the processing of criminal history dispositions.

## **Maricopa County Nonmajor Enterprise Fund**

---

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private enterprises where the intent of the County is that the costs of providing goods and services to the general public on a continuing basis be financed through user charges. This allows for the evaluation of the fund on the same basis as investor-owned enterprises in the same industry.

**Solid Waste** - Solid Waste assists the cities and towns, businesses, and citizens in continuously improving regional waste management systems. This includes an ever-increasing focus on reducing the amount of waste generated, maximizing resource recovery, proper management of special wastes, and environmentally sound disposal.

## **Maricopa County**

### **Listing of Internal Service Funds**

---

Internal Service Funds are used to account for services and commodities provided by one department or agency to other departments or agencies of the County. These services are provided on a cost-reimbursement basis. The following is a listing of the Internal Service Funds reported within Maricopa County.

**Equipment Services** - This fund provides assistance to other Maricopa County departments to ensure quality service to the citizens of Maricopa County by furnishing and maintaining the necessary County mobile equipment in an efficient manner.

**Telecommunications** - This fund provides cost effective voice, data, and radio communications to County employees.

**Reprographics** - This fund provides the County's printing and duplicating services.

**Risk Management** - This fund supports the comprehensive insurance/self-insurance program, which safeguards County assets and employees by means of a Trust Fund. Personnel skilled in loss control, claims and litigation and workers' compensation work together to avert risk and conserve the human and financial resources of Maricopa County.

**Employee Benefits Trust** - This fund collects employee and employer contributions for payment of the employees' medical, dental, pharmacy, and short-term disability benefits.

**Sheriff Warehouse** - Sheriff Warehouse tracks inventory activity for supplies purchased by the warehouse for resale and stores consignment inventory for other departments.

## **Maricopa County Agency Fund**

---

Agency Funds are used to account for assets held by the County in a fiduciary capacity or as an agent for individuals, private organizations, and other governments.

The County maintains an Agency Fund, which is not under the control of the Board of Supervisors. The Agency Fund is custodial in nature and does not involve measurement of results of operations.

### **AGENCY FUND**

**Special Purpose** - The Special Purpose Fund accounts for receipts, which are designated for special purposes and are not related to an individual governmental unit.
